SANDHYA M

Software Engineer | SharePoint Migration | Java | Networking Fundamentals

Salem, Tamil Nadu	9597354861	iammsandhya@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with experience at HCLTech supporting SharePoint migration activities, including site verification, complexity assessment, and migration using ShareGate. Has hands-on Java practice through training and a CRUD-based student-data application. Also studied CCNA networking fundamentals and practiced network concepts using Cisco Packet Tracer.

PROFESSIONAL EXPERIENCE

Software Engineer | HCLTech — Chennai, India Sep 2022 – Apr 2025

- Supported SharePoint migration work, including consolidation of Bank of the West with Bank of Montreal.
- Used ShareGate to support data migration activities.
- Performed site verification and assessed site complexity to support migration planning.
- Supported conversion planning from classic SharePoint sites to modern sites.

TECHNICAL SKILLS

SharePoint & Migration	SharePoint management, ShareGate, site verification, migration planning
Programming	Java fundamentals, object-oriented programming, CRUD application development, ArrayList, exception handling, file I/O
Networking	CCNA networking fundamentals studied using Cisco Packet Tracer (self-study; not a CCNA certification)
Automation	Microsoft Power Automate flows
Core Skills	Problem solving, data migration, site assessment and verification

PROJECT

Student Data Management Application | Java

Developed a CRUD-based application to manage student records using object-oriented principles. Used ArrayList for data storage, exception handling for input validation, and file I/O for local persistence.

EDUCATION

Bachelor of Engineering (B.E.), Electrical and Electronics Engineering — Sona College of Technology, Salem | 2022

CERTIFICATIONS & TRAINING

- Microsoft Azure Fundamentals (AZ-900) — completed
- Java training/certification — FITA Academy
- Java training — Great Learning
