KISHORE A

Software Engineer

arulalankishore@gmail.com 9360262618 Salem, India LinkedIn GitHub

PROFILE

Information Technology student with foundational knowledge in Java, Python, and MySQL, along with an understanding of software testing principles. Familiar with writing basic programs, database operations, and testing methodologies. Focused on strengthening development skills and building practical, real-world applications. Seeking an opportunity to apply and grow technical abilities in a professional environment.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology
Final Year Student
Sri Krishna College of Technology | 2023 – 2027 | Coimbatore, India
Higher Secondary
(HSE) Percentage - 90%
Universal Matriculation Higher Secondary School| 2022 – 2023 | Salem, India

TECHNICAL SKILLS

- **Languages & API Development:** Java, SQL, C++, Python
- **Frontend:** React, HTML, CSS, JavaScript
- **Backend & Frameworks:** Spring Boot, REST APIs, JDBC
- **Software Testing:** Manual Testing, Automation Testing
- **Databases & Caching:** MySQL
- **Cloud & DevOps:** AWS (EC2, S3), Docker
- **Tools & Version Control:** VS Code, Eclipse, Figma

PROJECTS

AI-Based Real-Time Emergency Monitoring Using Autonomous Drone Surveillance

Tech Stack: Python, YOLOv8, Flask, OpenCV

- Developed an AI-powered drone surveillance system for real-time crowd and traffic monitoring.
- Implemented YOLOv8-based object detection to identify humans and vehicles from live video streams.
- Built a risk scoring and alert system to detect abnormal crowd density and traffic congestion.
- Designed a Flask-based dashboard with heatmap visualization and live emergency monitoring features.

CERTIFICATIONS

React Web Developer Certification - Infosys Springboard , 2024

Effective Writing - NPTEL

Virtualization & Cloud Computing - Infosys Springboard , 2025

Introduction to Cybersecurity - Cisco

Python Essentials - Cisco Networking Academy

Java Foundation Certification - Infosys Springboard , 2024

PROFESSIONAL EXPERIENCE

Full Stack Development using Java in Training Trains Software Technologies & Institute

- Completed training in **Full Stack Development using Java** at **Trains Software Technologies & Institute**.
- Gained hands-on experience in **HTML, CSS, JavaScript, React, Java, Spring Boot, and REST API development.**
- Learned **database integration** and developed end-to-end web applications with backend logic.
