EDUCATION

MAHENDRA ENGINEERING C0LLEGE, NAMAKKAL

- Bachelor of Information Technology
- CGPA: 9.57

LANGUAGES

- Tamil
- English
- Japanese (N5 certified)

INTERNSHIP

- Mobile App Development Internship Training – Aalan Info Tech Soft (15days).

SKILLS

Technical Skills

- Front End (HTML, CSS).
- MS Excel (Data entry, basic formulas, and spreadsheet organization)
- Java (Basics)
- Python (Basics)
- C Programming (Basics)

Soft skills

- Effective communication
- Adaptability
- Team collaboration
- Time management
- Leadership
- Active listening

SUMMARY

Motivated engineering student with a growing interest in front-end development and language learning. I have patience to learn new things and with clear communication. Has foundational knowledge in web technologies along with basic design tools and an interest in working with MS Excel and MS Word. Passionate about learning new languages and exploring cross-cultural communication.

ACHIEVEMENTS

Hackathon – Participated in VIBATHON ’26 built Road pothole-reporter in 2 hours -role as Team Leader.

Workshop – Attended a hands-on workshop on Cyber Security.

Conference – Attended Technical conferences in inter college.

Japanese Language Proficiency Test - JLPT

- JLPT N5 — Cleared (Score: 84/180)
- JLPT N4 — Currently in Progress
- Continuously improving reading, writing, and basic conversational skills.

TOOLS

- Capcut
- Canva, Figma
- AI Tools- Cursor, WindSurf, Claude
- MS Word
- VS code, Eclipse, Andriod Studio

PROJECTS

Quantum Key Personalization with Smart Digital Locker System:

Developed a secure digital locker system for storing and managing sensitive data using personalized encryption keys using Java. Implemented user authentication, access control, and encryption or decryption mechanisms to prevent unauthorized access. Focus on security, scalability, and efficient data management.

ProDESIGN - UI/UX Web Design & Website Development:

Designed and developed a responsive website using HTML and CSS, focusing on a clean and user-friendly interface.

Road Pothole Reporter:

Developed a user-friendly system using Java for reporting potholes and damaged roads, helping users share road issues with relevant authorities. The system enables users to submit pothole details and supports efficient monitoring and management of reported issues.
