PROFESSIONAL SUMMARY

Product Designer with 5+ years of design experience spanning visual design, web experiences, SaaS, and AI-powered products. Experienced across UX research, user flows, information architecture, interaction design, prototyping, design systems, and high-fidelity UI. Combines strong visual craft with product thinking to simplify complex requirements into clear, usable experiences, with hands-on experience taking an AI product from research and design through deployment.

EXPERIENCE

CENTELON SOLUTIONS | Visual Designer & Video Editor
2025 - Present | Chennai, India

- Designed 100+ digital creatives and product imagery for Centelon Robotics, StoreSPARC, Boltin, and Hoysala Honda across web and marketing touchpoints.
- Developed visual concepts and UI ideas for web experiences, collaborating with WordPress developers to translate design direction into production websites.
- Conducted competitor research and contributed visual recommendations to improve website and product communication.

V-FRAN DIGITAL MEDIA | Graphic Designer & Video Editor
2022 - 2025 | Tiruchengode, India

- Conducted user research and competitor analysis for landing-page projects, translating findings into clearer content hierarchy and user flows.
- Designed responsive web experiences including a cafe landing page, women's empowerment website, and Paviesh Park pre-booking experience.
- Designed 150+ creative variants and produced 80+ mobile video sequences across 10+ campaigns and digital platforms.

MAHENDRA NEXT WEALTH | 3D Annotator (Blender)
2021 - 2022 | Salem, India

- Mapped 1,000+ spatial annotations using Blender 3D for ML frameworks with 95%+ precision.

SELECTED PRODUCT WORK

ROLEWISE | AI-Powered Interview Preparation
Live Product

- Conducted user research to understand uncertainty around job-role fit, requirements, and interview preparation.
- Designed role-contextual UX flows connecting job requirements with user experience to surface role-fit insights.
- Designed, built, and deployed an AI interview practice product covering role preparation, voice/video practice, and feedback.

CLIENTRAQ | Freelancer Client Acquisition SaaS
Case Study

- Designed a SaaS dashboard for managing clients, earnings, conversations, and tasks across key workflows.
- Designed a searchable client directory with filters for industry, location, company size, and revenue.
- Created a Client Hub for status tracking, notes, alerts, and AI-assisted messaging workflows.
