CAREER OBJECTIVE

Aspiring Software Developer seeking an opportunity to apply programming, problem-solving, and application development skills while contributing to innovative software solutions and growing in a dynamic technology environment.

TECHNICAL SKILLS

Programming Languages: Java, Python
Web Technologies: HTML, CSS, JavaScript, React
Database: MySQL
Core Concepts: Object-Oriented Programming (OOP), CRUD Operations, Database Management
Tools: Power BI, Microsoft Excel, Microsoft PowerPoint, GitHub

EDUCATION

Bachelor of Engineering – Computer Science and Engineering 2023 – Present
KSR Institute for Engineering and Technology, Namakkal
CGPA: 8.44

HSC 2023
Christhu Jyothi Matriculation Higher Secondary School, Erode
Percentage: 74.5%

SSLC 2021
Christhu Jyothi Matriculation Higher Secondary School, Erode
Percentage: 100%

INTERNSHIPS

Data Science Intern – Accent Techno Soft, Coimbatore

- Gained hands-on experience in data analysis, preprocessing, and visualization using real-world datasets to identify patterns and derive insights.
- Used Python and data visualization techniques to process and interpret datasets, strengthening practical data-driven problem-solving skills.

Data Analytics Intern – Stack Queue Education, Salem

- Performed data cleaning, processing, and visualization to analyze datasets, identify trends, and generate insights for data-driven decisions.
- Organized and interpreted business data using analytical techniques and presented findings through clear visual reports.

PROJECTS

Super Market Billing System
Java, Spring Boot, MySQL

- Developed a billing application using Java and Spring Boot to manage products, generate customer bills, and calculate purchase totals.
- Integrated MySQL to store product and billing information for efficient data retrieval and transaction management.

Medi-Connect – Smart Healthcare Platform
HTML, CSS, React, JavaScript, Firebase, Vite

- Developed a healthcare platform enabling seamless interaction between patients and doctors through a user-friendly interface.
- Implemented online appointment booking and hospital information access to simplify connections between patients and healthcare services.

MicroFarm AI
HTML, CSS, JavaScript,Python

- Developed a web-based solution to analyze soil and regional conditions and identify suitable crops for specific soil types.
- Considered seasonal factors and regional conditions to provide suitable crop recommendations for the selected soil and season.

KEY ACHIEVEMENTS

- Achieved Silver Elite certification in NPTEL SWAYAM – Sustainable Happiness with a score of 86%.
- Project selected for the next round of the TANCAM Hackathon at Sona College of Technology.

CERTIFICATIONS

- NPTEL SWAYAM – Sustainable Happiness (Silver Elite – 86%)
- MATLAB Certification
- TANCAM Hackathon Certification
