NAGANANDHINI N

Full Stack Developer | React.js · Node.js · MySQL · Firebase · REST APIs · AWS

Salem, Tamil Nadu, India | +91 8610650696 | thenaganandhinioffical@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 8+ months of internship experience delivering 5+ production-ready web applications using React.js, Node.js, MySQL, and Firebase. Skilled in building responsive, scalable UI components, RESTful API integration, secure authentication (Firebase Auth), real-time data synchronization (Firestore), and performance optimization. Experienced across career-guidance, alumni-management, logistics, ed-tech, and trading platforms, with additional exposure to Java, Spring Boot, AWS, and Agile/Git-based development workflows.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive & Mobile-First UI
Backend: Node.js, Spring Boot (basics), RESTful API Design & Integration
Databases & Cloud: MySQL, Firebase (Authentication & Firestore), AWS, Database Optimization
Tools & Practices: Git, GitHub, Agile/Scrum, Clean Code Practices, Version Control, Performance Optimization
Area of Interest: Full-Stack Design & Development

EDUCATION

B.E., Computer Science and Engineering — KSR Institute for Engineering and Technology *Expected 2027*
CGPA: 8.35

Higher Secondary (HSC) — Jayarani Girl's Higher Secondary School, Salem *2023*
Percentage: 76.7%

Secondary School (SSLC) — Jayarani Girl's Higher Secondary School, Salem *2021*
Percentage: 100%

EXPERIENCE

Software Developer Intern — Praskla Technology *Jul 2025 – Feb 2026*
Hybrid · Coimbatore

- Delivered 5+ production-ready web applications end-to-end (design to deployment) using React.js, Node.js, Tailwind CSS, Firebase, and MySQL, building responsive and user-centric solutions.
- Built reusable UI components and integrated REST APIs across multiple platforms, optimizing application performance and ensuring seamless UX across devices.
- Developed and maintained production platforms spanning career guidance, alumni management, logistics, and real-time communication, following clean coding practices, Git-based version control, and Agile methodology.

PERSONAL PROJECTS

Career Thrive — Local Services Marketplace *Dec 2024*
React.js · HTML · CSS · JavaScript · Firebase (Auth & Firestore)

- Built a digital platform connecting small-scale workers directly with customers, removing intermediaries and enabling users to discover trusted local service providers.
- Developed responsive, intuitive UI in React.js allowing customers to browse profiles, view services, and connect across devices.
- Integrated Firebase Authentication and Firestore for secure user management and real-time data synchronization.

KSR Alumni Portal — Alumni Networking Platform *Feb 2024*
React.js · Tailwind CSS · HTML · CSS · Firebase (Auth & Firestore)

- Built a scalable alumni networking platform enhancing communication between alumni, students, and the institution through a centralized digital portal.
- Implemented modules for registration, profile management, event updates, announcements, and community engagement.
- Used Firebase Authentication and Firestore for secure access and real-time database synchronization.

INDUSTRY PROJECTS

- PleciPy — Assessment Management Platform: Engineered the Student Dashboard end-to-end (React.js, Node.js, AWS); integrated RESTful APIs and optimized database operations for assessment management and performance tracking.
- HoneyBee — Real-Time Communication Platform: Built a messaging application with responsive frontend components and backend APIs supporting secure, real-time communication and efficient data handling.
- ShipYon — Trading Platform: Developed the frontend using React.js and Node.js, building reusable UI components with optimized layouts for consistent cross-browser performance.
- Vishnu College of Engineering Website: Designed and maintained the official college website with responsive frontend and backend functionality, dynamic pages, and improved performance/accessibility.

ACHIEVEMENTS & CERTIFICATIONS

- Selected among the Top 150 teams nationally in the Google Solution Challenge 2025 for an innovative technology solution addressing real-world challenges.
- Designed, developed, and deployed 5+ production-ready web applications across full-stack, ed-tech, and messaging domains.
- Certification: Cloud Computing — NPTEL
- Certification: Sustainable Happiness — NPTEL
