PROFESSIONAL SUMMARY

B.Sc. Microbiology student with practical knowledge of microbiological techniques, biochemical testing, and basic molecular biology. Interested in R&D, Quality Control, Food technology and biotechnology, with a strong willingness to learn and grow professionally. "Quick learner with a strong willingness to learn new skills and adapt to new challenges."

HANDS ON TRAINING

- Microbial Culture and isolation
- Clinical specimen and sample processing
- Microscopy, centrifuge.

Molecular biology

- Plasmid DNA isolation
- Basic molecular techniques
-

ACHIEVEMENTS

- OralPresentation at the National Conference on "Microbial Biotechnology for sustainable agriculture "Bharathidasan College of Arts and Science (Autonomous), Erode, on 28 August 2026. Presented on "From Oncogenic Signaling to Precision Gene Therapy: A Proposed Integrated Molecular Model of Cancer."
- Participated in the National Seminar on "Prospect Development of Food and Microbial Sector (PDFM-2025)", K.S.R. College of Arts and Science for Women, Tiruchengode, on 28 January 2025
- 2nd Place in Microbiology Proficiency Competition -twice
-

EDUCATIONS

2024 - 2027

Bsc Microbiology
JKKN COLLEGE OF ARTS AND SCIENCE

2023 - 2024
Higher secondary education certificate
Government Girls higher secondary school
68%

2021 - 2022
Secondary school leaving certificate
Government Girls Higher secondary school
77.6%

PROJECT

Formulation of Consortium Liquid Bio-Fertilizer Using Soil Bacteria and Its Growth Promoting Activities.

•Designed a microbial-basedbiofertilizer concept using beneficial microorganisms for sustainable agricultural applications.
• Applied basic microbiological techniques for microbial culture, maintenance, screening, and evaluation of plant growth-promoting properties.
• Focused on developing an eco-friendly microbial product to enhance soil fertility and promote sustainable plant growth.
