PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Sc. Microbiology student with a strong foundation in microbiology, laboratory techniques, microbial biotechnology, food microbiology, and basic molecular biology. Skilled in laboratory practices, microbiological analysis, and maintaining a safe and organized work environment. Interested in building a career in food microbiology, quality control, pharmaceutical, or research-related fields. A quick learner with good communication, teamwork eager to apply academic knowledge in a professional environment.

- Microbial Culture and
- isolation Clinical specimen and sample processing
- Microscopy, centrifuge .

Molecular biology

- GENOMIC DNA ISOLATION
- PLASMID DNA ISOLATION
- BASIC MOLECULAR TECHNIQUES

ACHIEVEMENTS

- OralPresentation at the National Conference on “Contemporary Breakthroughs in Biological Research with AI”, Bharathidasan College of Arts and Science (Autonomous), Erode, on 28 August 2026. Presented on “MICROBIAL BIOTECHNOLOGY FOR SUSTAINABLE AGRICULTURE ".
- Participated in the National Seminar on “Prospect Development of Food and Microbial Sector (PDFM-2025)”, K.S.R. College of Arts and Science for Women, Tiruchengode, on 28 January 2025

EDUCATIONS

2024 - 2027

Bsc Microbiology

JKKN COLLEGE OF ARTS AND

- SCIENCE 2023 - 2024

  Higher secondary education certificate
  Government girls higher secondary school
  80.1%

- 2021-2022

  Secondary school leaving certificate
  Government Girls higher secondary school 65%

PROJECT

Formulation of Consortium Liquid Bio- Fertilizer Using Soil Bacteria and Its Growth Promoting Activities.

- ·Designed a microbial-basedbiofertilizer concept using beneficial microorganisms for sustainable agricultural applications.
- · Applied basic microbiological techniques for microbial culture, maintenance, screening, and evaluation of plant growth-promoting properties.
- · Focused on developing an eco-friendly microbial product to enhance soil fertility and promote sustainable plant growth.
