EXECUTIVE SUMMARY

Electronics and Communication Engineering student with a strong foundation in analog and digital electronics, complemented by hands-on experience in RTL design and verification using Verilog HDL, System Verilog, and UVM. Proficient in digital circuit design, testbench development, simulation, and EDA tools, with a solid understanding of combinational and sequential logic, FSMs, and functional verification methodologies. A motivated team player with strong problem-solving skills, passionate about VLSI design and verification, and eager to contribute to challenging engineering projects in the semiconductor industry.

EDUCATION

K.S.R. College of Engineering, Tiruchengode — 2023 – 2027
B.E. Electronics and Communication Engineering — CGPA: 8.7
National Matric Higher Secondary School, Varattampatti — HSC(2022–23):87%
National Matric Higher Secondary School, Varattampatti — SSLC (2020–21): Completed

TECHNICAL SKILLS

- **Analog & Digital Electronics:** ADCs, DACs, Multiplexers, OP-AMP, Transistor, Diode, Logic Gates, Combinational & Sequential Circuits, Flip Flops, Counters, FSMs
- **Verilog HDL:** RTL Design, Testbench Development, FSM Coding, Simulation & Debugging
- **Verification:** System Verilog, UVM, Constrained Random Verification, Functional Coverage
- **Embedded & Hardware:** Microprocessors & Microcontrollers, AVR GPIO, Sensors
- **Programming:** C, C++, Python | **Tools:** MATLAB, Xilinx Vivado, EDA Playground

PROJECTS

Elevator Controller — *Verilog HDL & System Verilog Verification*

- Designed an FSM-based Elevator Controller RTL model handling floor selection, door control, and direction logic. Built a System Verilog verification environment with constrained random stimulus, functional coverage, and assertions.

INTERNSHIPS

Taras Systems and Solutions Pvt. Ltd. — *VLSI Design & Verification Intern | 4 Months*

- Covered Verilog HDL, System Verilog, and Basic UVM; worked on RTL design, functional verification, and industry-oriented VLSI projects.

Embuzz Technologies Pvt. Ltd. — *Embedded C Programming on AVR GPIO | 15Days*

- Offline technical internship on AVR microcontroller and GPIO programming using Embedded C.

Bharat Sanchar Nigam Limited (BSNL) — *Fundamentals of Telecommunications | 1 Week*

- Focused on core telecommunication infrastructure and network operations at BSNL Salem.

CERTIFICATIONS

RTL Design Using Verilog HDL – Taras Systems and Solutions: Verilog HDL coding, RTL modeling, combinational & sequential circuits, FSMs, digital hardware implementation.

Functional Verification Using System Verilog and UVM – Taras Systems and Solutions: testbench development, constrained random verification, coverage-driven verification, UVM environments.

Introduction to Industry 4.0 and Industrial IoT – NPTEL, IIT Kharagpur | Elite – 71%

Cloud Computing – NPTEL, IIT Kharagpur | Successfully Completed

Advanced PCB Design – K.S.R. College of Engineering (Value Added Course)

ACHIEVEMENTS

• NCC 'B' & 'C' Certificate Holder | Served as Corporal | Developed Leadership, Discipline & Teamwork Skills

EVENTS & WORKSHOPS

- **Paper Presentation** – CRESCITA 2024, Kongu Engineering College
- **Paper Presentation –** TECHFINIX'24 , Paavai Engineering College
- **Tancam's Hackathon** – TNWISE 2026, PMC Tech
- **Technical Symposium** – SRISHTI2K23 , PSG College Of Engineering
