CAREER OBJECTIVE

Aspiring Software Developer and Computer Science & Business Systems undergraduate with a strong passion for software engineering, problem-solving, and innovation. Seeking an entry-level opportunity to leverage my technical knowledge, analytical mindset, and collaborative skills in designing and developing scalable, high-quality software solutions. Committed to continuous learning, adapting to emerging technologies, and contributing to organizational success by delivering efficient, reliable, and impactful solutions while growing as a technology professional.

EDUCATION

B.Tech, Computer Science and Business Systems (Pursuing) - *2023 – 2027*
Excel Engineering College

HSC – 67% (*2022 – 2023)*
Government Girls' Higher Secondary School

SSLC – 100% (*2020 – 2021)*
Government Girls' Higher Secondary School

PROJECTS

Virtual Science Lab Simulation

- Developed a web-based platform that allows students to perform virtual science experiments.
- Designed interactive simulations to improve learning and understanding of science concepts.

Student Emotion Intelligence (KD) – Web Technology

- Developed a web-based system to analyze and monitor students' emotional well-being.
- Implemented features for emotion tracking and user-friendly data visualization.

AI Resume Builder with Job Matching

- Built an AI-powered resume generator with automated job recommendation features.
- Enabled skill-based job matching to improve candidate suitability.

AI Calorie Tracking System

- Developed an AI-based application to track daily calorie intake and nutritional information.
- Integrated food analysis and personalized calorie monitoring features.

Flower Shop Web Page

- Designed and developed a responsive flower shop website with product listings.
- Implemented an intuitive user interface for browsing and order management.

INTERNSHIPS

Delphi-TVS Company – Organogram | Hardware – Injector Testing - (*June 2026)*

- Injector testing and performance analysis of fuel injection systems.
- Fuel injector testing, inspection, and quality analysis.
- Injector performance evaluation and functional testing.

New Technology Career Solution, Coimbatore | Machine Learning -(*Dec 2025)*

- Worked on ML tasks like data pr prepossessing and building basic models.

Liveware, Tiruchengode | Sports Shop Webpage - (*23 Dec 2024 – 21 Jan 2025)*

- Developed responsive websites using HTML, CSS, JavaScript, and PHP.
- Integrated MySQL database connectivity to support dynamic content delivery.
- Collaborated using Git and GitHub for version control and code management.

CERTIFICATIONS & COURSES

CSC Computer Software College | Honours Diploma in Computer Application (HDCA) – (*June 2022 – June 2023)*

- Completed training in MS Office (Word, Excel, PowerPoint), Advanced Excel, VBA Programming, HTML5, CSS3, MySQL, Internet Applications, and Tally Prime with GST — achieved Grade A (Excellent).

MATLAB Onramp – MathWorks

Ignite Bootcamp – Wadhwani Foundation

NCC - B Certificate Holder

ACHIEVEMENTS & COMPETITIONS

- Winner – Cody Challenge, MATLAB's.
- Participated in the 48-Hour Hackathon, Dayananda Sagar University.
- 2nd Prize Winner – Arvoli 2026 Project Expo, Knowledge Institute of Technology.
- Participated in a one-day National level 'Emerging Cybersecurity Trends' held on(28th Sep 2024).
- Participated in a three-day National level 'Generative AI' program held from(13th to 15th March 2025).
- Participated in a one-day National level 'Realtime IoT Projects with Raspberry Pi 4' held on(22nd March 2024).

SKILLS

Technical: Python, Django, HTML , CSS, Git/GitHub, MS Excel, MS Word, Machine Learning (Basics), Java (Basics), MATLAB (Basics)
Soft Skills: Problem solving, Communication,leadership quality,teamwork
