EXECUTIVE SUMMARY

Java Developer with a B.E. in Electronics and Communication Engineering and a CGPA of 9.18, with hands-on experience in Core Java, OOP, Collections, File I/O, SQL, DSA, and basic Spring Boot. Developed Java-based applications including an e-commerce application and College Management System. Solved 70+ LeetCode problems, demonstrating problem-solving and programming skills.

TECHNICAL SKILLS

Programming: Java
Core Java: OOP, Collections, Exception Handling, File I/O, Generics, Java 8
Database: SQL
Backend: Spring Boot, REST API
Concepts: DSA, Multithreading
Tools: Git, GitHub

INTERNSHIP / TRAINING EXPERIENCE

Zoho Spoke office– Namakkal
Rural Development Program | 3 Months **08/2026-10/2026**

- Received training in Core Java and Object-Oriented Programming (OOP) concepts.
- Learned basic computer networking concepts.
- Developed a **College Management System** using Java, Collections, and File I/O.
- Developed **MultiCart, an E-Commerce Application**, using Java and OOP concepts, with features for product management, customer accounts, shopping cart, and order processing.

Techvolt Software Pvt. Ltd – Coimbatore
Core Java Training | 15 Days **08/2025-08/2025**

- Learned Core Java fundamentals and Object-Oriented Programming (OOP) concepts.
- Developed a Bank Management System using Java.
- Practiced Java programming and basic application development.

PROJECTS

MultiCart – E-Commerce Application

Technologies: Java, OOP, Collections, File I/O, Exception Handling,OOPs

- Developed a console-based e-commerce application using Java.
- Implemented Admin, Seller, and Customer modules with sign-in and sign-up functionality.
- Implemented product management, shopping cart, order, and payment-related operations.
- Used Collections and file handling for managing and persisting application data.
- Applied OOP and exception handling to structure and validate application operations.

College Management System
Technologies: Java, Collections, File I/O, OOPs

- Developed a console-based application to manage student, teacher, subject, marks, attendance, and payment information.
- Used ArrayList and HashMap to manage application data.
- Implemented file-based storage for persistent student records.
- Applied OOP, exception handling, and collection concepts.

CERTIFICATIONS

NPTEL – Programming in Java and L&T – Java Training
