PROFESSIONAL SUMMARY

Front-end developer (fresher) skilled in building responsive, cross-browser interfaces with semantic HTML5, modern CSS3, JavaScript (ES6) and Bootstrap 5. Able to translate design mockups into pixel-accurate, mobile-first layouts, debug rendering issues with browser developer tools, and optimise pages for performance and accessibility. Certified in web development by GlowLogics with additional industry internship training. Pursuing B.Tech in Information Technology (CGPA 8.0/10, Anna University, 2027) and seeking a remote Front-End / HTML-CSS Developer role.

TECHNICAL SKILLS

Markup & Styling: HTML5 (semantic markup, accessible structure), CSS3 (Flexbox, Grid, media queries, animations)

Scripting: JavaScript (ES6) — DOM manipulation, event handling, form validation

Frameworks & Preprocessors: Bootstrap 5; working knowledge of SASS/SCSS and Tailwind CSS fundamentals

Responsive Design: Mobile-first development, fluid layouts, breakpoints, cross-browser compatibility

Design to Code: Implementing UI from Figma mockups — spacing, typography and colour fidelity

Debugging & Optimisation: Chrome/Firefox DevTools, asset and page-load optimisation, WCAG accessibility basics

Tools & Version Control: Git, GitHub, VS Code, Netlify/GitHub Pages deployment

CERTIFICATIONS

Web Development Internship Certificate — GlowLogics (ID: WD26-GL05-I179) *2026*

Web Development Course Completion Certificate — GlowLogics (ID: WD26-GL05-C179) *2026*

INTERNSHIP EXPERIENCE

Web Development Intern — Techvolt Software Pvt. Ltd. *15 Days*

- Built responsive, user-friendly web pages with HTML5, CSS3, JavaScript and Bootstrap 5, following modern front-end development practices.
- Converted layout requirements into clean, semantic markup and reusable CSS, ensuring consistent rendering across mobile, tablet and desktop screen sizes.
- Tested and debugged pages using browser developer tools to resolve cross-browser layout and functional issues.
- Worked with mentors on front-end workflows, coding standards and code-review feedback, and version-controlled work with Git.

PROJECTS

Personal Portfolio Website — HTML5, CSS3, JavaScript (ES6), Bootstrap 5 *Independent Project*

- Designed and developed a fully responsive portfolio site presenting skills, projects, internship experience, education and certifications.
- Structured the page with semantic HTML5 sections (landing, About, Skills, Projects, Contact) and smooth-scroll navigation built on the Bootstrap 5 grid.
- Implemented a mobile-first layout using Flexbox, CSS Grid and media queries; verified pixel consistency across Chrome, Firefox and Edge.
- Optimised images and stylesheets to cut page load time, and applied accessible practices such as alt text, heading hierarchy and readable colour contrast; deployed via GitHub.

EDUCATION

B.Tech, Information Technology — Vivekanandha College of Technology for Women *Expected 2027*
Anna University | CGPA: 8.0 / 10
