AMOKAA SARAVANAN

+91 6374717887 | amokaass@gmail.com | Erode, Tamil Nadu | LeetCode

PROFILE SUMMARY

Final-year B.Tech Information Technology student with a strong foundation in Python, SQL, Data Structures and Algorithms, and problem-solving. Experienced in developing academic projects and gained practical exposure through a full-stack development internship. Certified in Python and SQL, with a strong interest in software development, data-driven applications, and emerging technologies. Quick to learn, adaptable, and seeking an entry-level opportunity to apply technical skills and contribute to a growth-oriented organization.

EDUCATION

B.Tech - Information Technology | Nandha Engineering College, Erode — 2023 - 2027 | CGPA: 8.1 / 10

Higher Secondary Education | Saratha Matriculation Higher Secondary School, Gobi — 2022 - 2023 | 81.0%

TECHNICAL SKILLS

Programming Languages: Python, SQL
Web Technologies: HTML, CSS
Developer Tools: Git, GitHub, VS Code, MS Office

PROJECTS

AI-Based Smart Agriculture and Farmer Assistance System — 2026

- Developed an application-based solution to assist farmers with agricultural information and decision-making.
- Applied programming and problem-solving concepts across the development of the system.
- Designed a user-friendly interface to deliver useful, accessible information to farmers.

Non-Invasive IoT-Based Health Monitoring System — 2026

- Developed an IoT-based system to monitor vital signs in real time using sensors and a mobile application.
- Integrated hardware and software components to enable continuous real-time monitoring.
- Applied programming and logical problem-solving skills throughout system development.

INTERNSHIPS

Data Analytics Intern | Brainary Spot | Coimbatore — 15 Days

- Worked on assigned data and reporting tasks under guidance, applying basic data analysis concepts.
- Organized data to support business-related tasks and gained exposure to how data is used in decision-making.

Full Stack Development Intern | Training Trains | Erode — 15 Days

- Developed application features using core front-end and back-end web development concepts through guided project work.
- Strengthened programming, debugging, and problem-solving skills through hands-on tasks.

ACHIEVEMENTS

- Participated in a college-level 24-hour hackathon at Nandha Engineering College.
- Participated in a college-level symposium at Nandha Engineering College.

CERTIFICATIONS

- Python Programming Certification
- SQL Certification
- NPTEL - Design & Implementation of Human-Computer Interfaces
- NPTEL - Privacy and Security in Online Social Media
- NPTEL - Cyber Security and Privacy
