PROFESSIONAL SUMMARY

E-commerce and Quick-Commerce professional with 3+ years of Amazon experience across Catalog, Inventory and Operations, including FMCG and consumables. Experienced in Amazon Fresh UK and Amazon Go Stores, supporting product/ASIN onboarding, catalog management, inventory, inbound operations, stock availability, order fulfillment, pricing and product data. Skilled in Wombat, Selection Central, FEAST, Amazon Seller Central and MS Excel, with experience in inventory accuracy, KPI/SLA tracking, operational reporting, workload allocation, root-cause analysis, SOP compliance and process improvement.

PROFESSIONAL EXPERIENCE

Catalog Specialist Jul 2025 – Jan 2026
Amazon Development Centre India Pvt Ltd

- Managed ASIN onboarding for Amazon Fresh UK and Amazon Go Stores through Selection Central and FEAST, ensuring accurate product information and catalog publishing.
- Managed product catalog content including titles, descriptions, images, dimensions, ingredients, keywords and sellability attributes.
- Supported inventory and inbound updates using Wombat and other Amazon internal tools, maintaining stock availability and data accuracy.
- Monitored buyability and inventory issues, performed root-cause analysis and maintained a 98.5% buyability SLA.
- Reviewed damage, expiry and shrinkage data in Wombat and prepared Excel reports for management.
- Conducted catalog, inventory, pricing and product-data audits and validated pricing-rule parameters.
- Performed BLMA and Rapid Delivery audits, identifying catalog, pricing, inventory and product-data issues.
- Used Excel for KPI tracking, operational reporting, data analysis and workload allocation; supported new-hire training and cross-functional issue resolution.
- Conducted web research and product/competitor data validation to verify product information, keywords, content accuracy and online retail attributes.
- Worked with cross-functional stakeholders to resolve catalog, pricing, content, inventory and product visibility issues while maintaining SOP compliance and data accuracy.

Customer Service Associate May 2022 – Dec 2024
Amazon Development Centre India Pvt Ltd

- Handled high-volume customer interactions through phone, chat and email while meeting productivity, quality and SLA targets.
- Resolved order, delivery, fulfillment, product, payment and account issues through troubleshooting and root-cause analysis.
- Supported order fulfillment and delivery operations by investigating issues and coordinating with relevant teams.
- Supported new-hire associates through classroom/process training and tracked team KPIs, case volumes and attendance using Quip trackers.
- Maintained accurate customer, order and product information while following Amazon SOPs and quality standards.
- Supported complex escalations as part of the DART Team and identified recurring operational issues for process improvement.
