CAREER OBJECTIVE

Final-year Computer Science Engineering student with a strong interest in Python and full-stack web development, backed by hands-on project and internship experience. Eager to apply my technical skills to build innovative and practical technology solutions.

EDUCATION

B.E., Computer Science and Engineering 2023 – 2027
Excel Engineering College | CGPA: 7.49

Higher Secondary Education – 12th 2021 – 2023
Mount Mary Matric Higher Secondary School | Percentage: 64%

PROJECTS

AgriZen — Python, React.js, JavaScript, HTML, CSS

- Developed a full-stack agriculture web application for a Smart India Hackathon (SIH) project.
- Designed and built a responsive, farmer-friendly React.js frontend with simple navigation and a clear layout.
- Integrated the frontend with the Python backend through APIs and connected it to the database to store and retrieve application data.
- Debugged and tested frontend-backend integration issues, and used Git and GitHub for version control while working in a team.

SmartConvert — React.js, Python, EasyOCR, PyTorch, Firebase, Vercel
AI-Powered Universal File Transformation Toolkit & Document Workspace

- Built a full-stack file conversion toolkit with a React.js frontend and Python backend, deployed on Vercel and Firebase.
- Implemented image conversion (JPG, PNG, WEBP) and document conversion (PDF to DOCX, DOCX to PDF, TXT to PDF).
- Added PDF utilities for merging, splitting, and compression.
- Integrated OCR using EasyOCR and PyTorch, plus a document workspace for managing processed files.

Hostel Management System — Python, MySQL, HTML, CSS, JavaScript

- Developed a web application to manage hostel operations, including student records, room allocation, fee tracking, and complaints and attendance.
- Designed a relational MySQL database schema for students, rooms, fees, complaints, and attendance.
- Implemented separate admin and student login with role-based access.
- Built CRUD operations with a Python backend and an HTML, CSS, and JavaScript interface for managing records.

EXPERIENCE

Python Developer Intern — Codec Technologies, Bengaluru January 2026 – February 2026

- Gained hands-on experience in Python development and practical programming concepts.
- Worked on developing and implementing Python-based solutions during the internship.
- Strengthened problem-solving, debugging, and software development skills through practical tasks.

SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS
Frontend: React.js, Vite, Framer Motion, Responsive UI, Figma
Backend & Databases: Node.js, REST API Integration, MySQL, Firebase, Supabase
Deployment: Vercel, Firebase Hosting
Tools: Git, GitHub, Postman, VS Code, Antigravity
Data & Analytics: Pandas, NumPy, Matplotlib, MS Excel
Core Skills: Debugging, Problem Solving, Quick Learner, Adaptable

CERTIFICATIONS & ACHIEVEMENTS

- 1st Place, Paper Presentation
- IBM - Web Development Fundamentals
- Cisco - Python Essentials
