CAREER OBJECTIVE

Aspiring Mechanical Engineering student with a strong interest in Design and Manufacturing, seeking an opportunity to contribute in the areas of production, quality, or design engineering. Backed by hands-on experience through an industrial internship, Six Sigma certification, and SolidWorks proficiency, I am eager to apply my technical skills to support precision manufacturing and continuous improvement initiatives.

TECHNICAL SKILLS

- **Production Tools and Techniques:** Six Sigma, GD&T, CNC Machining.
- **Design Tools:** AutoCAD, SolidWorks, CATIA V5R2, Fusion 360.

INTERNSHIP EXPERIENCE

Intern at Robolog Automation – Dharmapuri **Jan-2026**

- Learned design and development of jigs, fixtures, and cutting tools using CAD-based modelling and drafting.
- Gained hands-on exposure to CNC machining processes, tool applications, and material/tool-life considerations.

Intern at Steel Authority of India Limited (SAIL) - Salem **Dec-2025**

- Studied HRM and CRM operations, focusing on hydraulic systems and precision rolling.
- Gained exposure to preventive/predictive maintenance, lubrication systems, and alignment practices across mills and utilities.
- Observed industrial safety standards and quality processes in annealing, pickling, and mechanical shop operations.

ACADEMIC PROJECTS

- Designed a Bot under the topic “Intelligent Pesticide Sprinkling System determined by the Infection level of a Plant” | SIH Hackathon | **Sep 2025**
- Parametric Design of a Multi-Purpose Clamp | Naan Mudhalvan, Tool Design | **Dec 2025**
- Portable thermoelectric water cooler using Peltier modules | Mini Project | **May 2026**

ACHIEVEMENTS

- **winner – Naan Mudhalvan, Tool Design | December 2025.**

EDUCATION

- **BE in MECHANICAL ENGINEERING** | Government College of Engineering, Salem (636011) | CGPA: **7.01** | 11/2023 – Present and **Higher Secondary** | Muslim Higher Secondary School | Score: **81%** | 06/2022 - 03/2023.

SOFT SKILLS:

- **Leadership** – Serving as Student Placement Coordinator, Student Coordinator in Mechanical Engineering
- **Collaborative Mindset** – Proven ability to work effectively in team-based settings, including organizing department-level technical events and symposiums.
