SUMMARY

Electronics and Communication Engineering student with hands-on experience in Embedded Systems, IoT, ESP32, sensor interfacing and real-time monitoring.Quick learner with a problem-solving mindset, seeking to begin a career as a Production Trainee and contribute to engineering, production and quality processes.

TECHNICAL SKILLS

Programming: C(basics),java(basics)

Microcontrollers:Ardino,STM32

PROJECTS

IoT-Based Automatic fire alarm System

- Developed an IoT-based Automatic fire alarm System using Arduino uno.
- Integrated flame sensor,MQ-2 smoke sensor,buzzer and led.programmed the system for real time fire detection.
- By using this identify the fire or smoke and send the signal to the buzzer.

Lora-based smart agriculture system

- Developed a lora based system for real time monitoring of agricultural field conditions.
- Integrated soil moisture,temperature,humidity sensors with a microcontroller.
- Enabled smart irrigation system and remote monitoring to improve water efficieny amd crop management.

INTERNSHIPS

Embedded and iot trainee — Sans innovation Pvt. Ltd. | *Jan 2025 – Feb 2025*

- Learned about an automatic fire alarm system using embedded and iot to detect fire /smoke and provides instant alerts.
- participated in hands on training on embedded development fundamentals.
- Built a foundation in hardware interfacing and embedded software development.

EDUCATION

B.E. – Electronics and Communication Engineering
AVS Engineering College
CGPA: 8.65/10

Higher Secondary Certificate(HSC)
Municipal girls higher secondary school.
Percentage: 78.33%

CERTIFICATION

Embedded system internship- Sans Innovations,Salem.

LANGUAGES

Tamil, English

SOFT SKILLS

- Problem solving .
- Team collaboration.
- Quick learner.
- Communication.

PROFESSIONAL SUMMARY

Electronics and Communication Engineering student with hands-on experience building AWS cloud projects, including serverless applications, three-tier web architectures, and secure cloud storage solutions. Skilled in Python, Linux, and networking fundamentals, with a strong foundation in cloud deployment and system design. Eager to contribute to innovative embedded and cloud technology projects as a Cloud Engineer or Software Engineer.

TECHNICAL SKILLS

Cloud:	AWS (Lambda, API Gateway, S3, EC2, VPC, RDS, ALB, Auto Scaling, Route 53), Serverless Architecture, Cloud Deployment
Programming:	**core** Java
Networking:	Networking Fundamentals
Operating Systems:	Linux
Core Concepts:	Cloud Computing, Scalable & High-Availability Architecture

PROJECTS

Three-Tier Web Application Architecture **Apr 2026**

- Designed and deployed a scalable, highly available three-tier architecture on AWS using VPC, EC2, RDS, Application Load Balancer (ALB), Auto Scaling, and Route 53.
- Configured Auto Scaling and load balancing to handle variable traffic loads while maintaining application availability.

Random Quote Generator (Serverless Web App) **Jun 2026**

- Built a cloud-based Daily Quote Generator using AWS Lambda, API Gateway, and a JSON-based quote repository to serve random motivational quotes via a responsive web interface.
- Implemented a serverless architecture to improve scalability, cost efficiency, and high availability; source code available on GitHub.

Cloud-Based File Storage System **Apr 2025**

- Developed a secure file storage application enabling upload, retrieval, and remote access to files using AWS S3 and Python.
- Implemented S3-based storage and file management, strengthening practical understanding of cloud architecture and deployment concepts.

INTERNSHIP EXPERIENCE

AI Tools Trainee | *NoviTech R&D Pvt. Ltd.* **Jun 2025 – Aug 2025**

- Learned and applied various AI tools as part of a hands-on training internship.

Java Development Intern | *Arttifi Technology Pvt. Ltd.* **Jul 2025**

- Completed a development task using Java, strengthening core programming fundamentals.

Embedded and Iot intern | *sans innovation Pvt. Ltd.* **Jan 2025 – Feb 2025**

- Developed an IOT based automatic fire alarm system using sensors and microcontrollers.
- Implemented real time fire detection and alert mechanism.

EDUCATION

B.E, Electronics and Communication Engineering **2023 – Present**
Cgpa: 8.65

Higher Secondary (Class XII), Tamil Nadu State Board **2022-2023**
Score: 78.3%

Secondary (Class X), Tamil Nadu State Board **2020-2021**
Score: 77%

LANGUAGES

Tamil, English
