THEJASRI J V

Salem, Tamil Nadu | +91-9080259034 | thejasrithejasri05@gmail.com | linkedin.com/in/thejasri-j-v-8009a22a1 | github.com/theju-05

PROFESSIONAL SUMMARY

Motivated Electronics and Communication Engineering graduate with strong communication, problem-solving, and technical skills. Familiar with Cloud Computing, AWS, Core Java, Linux, computer networking, and technical troubleshooting. Hands-on experience through academic projects and internships, with a strong willingness to learn and adapt to new technologies. Seeking an entry-level opportunity to contribute effectively and grow in a dynamic organization.

TECHNICAL SKILLS

Cloud Technologies: AWS, Cloud Computing
Programming: Core Java
Operating System: Linux
Networking: Computer Networking

PROJECTS

Random Quote Generator (AWS Serverless)

- Developed a cloud-based Random Quote Generator using AWS Lambda, Amazon API Gateway, Amazon S3, and a JSON repository to deliver motivational quotes through REST APIs.
- Designed a serverless architecture that improved scalability, availability, and cost efficiency while gaining hands-on experience in AWS cloud deployment and API integration.

Technologies: AWS Lambda, Amazon API Gateway, Amazon S3, JSON

Three-Tier Web Application Architecture (AWS)

- Designed and deployed a scalable AWS three-tier web application architecture using Amazon EC2, Amazon RDS, Amazon VPC, Application Load Balancer, Auto Scaling, and Route 53.
- Implemented high availability, load balancing, secure networking, and scalable infrastructure across the application tiers.

Technologies: Amazon EC2, Amazon RDS, Amazon VPC, Application Load Balancer, Auto Scaling, Route 53, AWS

Cloud-Based File Storage System (AWS)

- Developed a secure cloud-based file storage application using Amazon S3 for uploading, storing, and downloading files, strengthening skills in cloud storage and secure file management.

Technologies: Amazon S3, AWS

INTERNSHIPS

AI Tools Trainee — NoviTech R&D Pvt. Ltd. *Jun 2025 – Aug 2025*

- Learned and applied AI tools during industrial training.

Java Development Intern — Arttifi Technology Pvt. Ltd. *Jul 2025*

- Completed Java-based development tasks that strengthened Core Java fundamentals.

Research Intern — Innovano Technology Solutions Pvt. Ltd. *Jan 2025 – Feb 2025*

- Conducted research on Learning Management Systems, instructional design, and student learning outcomes.

EDUCATION

B.E. – Electronics and Communication Engineering
AVS Engineering College | CGPA: 8.12 / 10

Higher Secondary — Tamil Nadu State Board
70%

CERTIFICATION

Cloud Computing — LIVEWIRE, Salem
Duration: 25 January 2026 – 31 March 2026 | Certificate Issued: 30 July 2026

LANGUAGES

Tamil, English

PROFESSIONAL SUMMARY

Motivated Electronics and Communication Engineering student with hands-on experience in Embedded Systems, IoT, Cloud Computing, and software development. Possesses a strong foundation in Digital Electronics, Computer Networking, Linux, and programming languages including C, Python, and Java. Quick learner with proven problem-solving abilities seeking an entry-level technical role.

TECHNICAL SKILLS

Embedded Systems & IoT: ESP32, Arduino IDE, Sensor Interfacing, Real-Time Monitoring, IoT Platforms

Core Concepts: Digital Electronics, Communication Systems, Computer Networking

Programming & OS: Embedded C, C, Python, Java, Linux, Git/GitHub

Cloud Infrastructure: AWS (S3, Lambda, API Gateway, EC2, RDS, VPC, ALB, Auto Scaling, Route 53)

PROJECTS

IoT-Based Smart Energy Meter Monitoring System

- Developed a smart energy meter using ESP32 to track real-time voltage, current, power, and energy consumption.
- Implemented continuous remote monitoring of electrical parameters via an integrated IoT cloud platform.

Technologies: ESP32, Arduino IDE, Embedded C, IoT Platforms

Cloud-Based File Storage System

- Engineered a secure cloud storage solution utilizing Amazon S3 and Python for effective file management.
- Implemented streamlined file upload, retrieval, and secure remote access functionality.

Technologies: Amazon S3, Python

AWS Three-Tier Web Application Architecture

- Architected a scalable, high-availability system using Amazon EC2, RDS, VPC, ALB, Auto Scaling, and Route 53.
- Demonstrated best practices in load balancing, network isolation, fault tolerance, and secure cloud networking.

Technologies: AWS (EC2, RDS, VPC, ALB, Auto Scaling, Route 53)

INTERNSHIP EXPERIENCE

AI Tools Trainee — NoviTech R&D Pvt. Ltd. *Jun 2025 – Aug 2025*

- Applied state-of-the-art AI tools and automated workflows during industrial hands-on training.

Java Development Intern — Arttifi Technology Pvt. Ltd. *Jul 2025*

- Executed core Java development tasks and built a solid understanding of Object-Oriented Programming.

Research Intern — Innovano Technology Solutions Pvt. Ltd. *Jan 2025 – Feb 2025*

- Investigated Learning Management Systems (LMS), instructional design, and student learning outcomes.

EDUCATION

B.E. – Electronics and Communication Engineering
