PROFESSIONAL SUMMARY

Final-year Integrated M.Tech Software Engineering student with hands-on experience in **Java, Python, JavaScript, React.js, Node.js, Spring Boot, Flask, SQL, MySQL, MongoDB, and REST APIs**. Experienced in designing, developing, testing, debugging, and maintaining full-stack and backend applications. Strong foundation in **Object-Oriented Programming, Data Structures and Algorithms, DBMS, software development, API integration, and database management**. Experienced in building responsive web applications and AI-powered software solutions. Strong problem-solving, communication, teamwork, and quick-learning abilities.

EDUCATION

Integrated M.Tech in Software Engineering, VIT University 2022 – Present

EXPERIENCE

Spring Java Backend Intern – Infosys 2025

- Developed backend applications using **Java, Spring Boot, OOP**, and layered software architecture.
- Designed and implemented **RESTful APIs** with CRUD operations, validation, exception handling, and business logic.
- Integrated applications with **MySQL** using Spring Data JPA and Hibernate for database management.
- Worked with controllers, services, repositories, dependency injection, and relational database operations.
- Tested and debugged REST APIs using **Postman**, identifying and resolving backend issues.
- Used Git/GitHub for source control and collaborated with team members during software development.

Freelance Full-Stack Developer 2025 – Present

- Developed web application features using **React.js, JavaScript, Node.js, Express.js, Python, Flask**, and REST APIs.
- Built responsive frontend interfaces using **HTML5, CSS3, React.js, and Tailwind CSS**.
- Implemented backend services, CRUD operations, authentication, API integration, and database interactions.
- Worked with **MongoDB, MySQL, SQL, Git/GitHub, Postman, Linux**, and modern development tools.
- Debugged frontend and backend issues and improved application functionality through iterative testing and development.

PROJECTS

Banking Management System *Java, Spring Boot, MySQL, REST APIs, JPA, Hibernate*

- Developed a banking application supporting customer accounts, deposits, withdrawals, transactions, and fund transfers.
- Designed REST APIs for account creation, balance management, transaction history, beneficiaries, and banking operations.
- Implemented Controller-Service-Repository architecture using **Java and Spring Boot**.
- Integrated **MySQL, SQL, Spring Data JPA, and Hibernate** for persistent database management.
- Applied OOP, validation, exception handling, authentication, and transactional database operations.
- Tested API endpoints and edge cases using Postman and debugged application issues.

Full-Stack Chat Application *React.js, Node.js, Express.js, MongoDB, REST APIs*

- Developed a full-stack web application with user authentication, profiles, messaging, notifications, and settings.
- Built responsive interfaces using **React.js, JavaScript, HTML5, CSS3**, and Tailwind CSS.
- Developed REST APIs using **Node.js and Express.js** and integrated MongoDB for CRUD operations.
- Implemented asynchronous API communication and debugged frontend-backend integration issues.

LungCT AI – Multi-Noise CT Image Classification and Analysis *Python, Flask, PyTorch, OpenCV, NumPy*

- Developed a Python-based software application for classification and analysis of multiple noise types in lung CT images.
- Built a **Flask backend** to integrate trained deep learning models with a web application.
- Implemented preprocessing, model loading, inference, evaluation, and image-processing workflows.
- Debugged Python, backend, and model-inference issues to improve application reliability.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS
Backend Development: Spring Boot, Flask, REST APIs, JSON, CRUD, Authentication, API Integration
Databases: MySQL, SQL, MongoDB, Spring Data JPA, Hibernate
Core Computer Science: Object-Oriented Programming, Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering
Testing and Development: API Testing, Debugging, Postman, Git, GitHub, Linux, Docker, VS Code, IntelliJ IDEA
AI/ML: Machine Learning, Deep Learning, PyTorch, OpenCV, NumPy, Computer Vision
Software Engineering: SDLC, Agile Development, Problem Solving, Code Debugging, Database Management, Responsive Web Development, Team Collaboration

ACHIEVEMENTS

- Participated in **Smart India Hackathon** and collaborated on development of a full-stack web application.
- Completed a **Spring Java Backend Internship at Infosys**, gaining practical experience in Java, Spring Boot, REST APIs, MySQL, testing, and debugging.
- Developed multiple software projects using Java, Python, JavaScript, React.js, Node.js, Spring Boot, MySQL, and MongoDB.
