Summary

I am an AI and Data Science engineer with a strong interest in AI, machine learning, and data analytics. I aim to use AI to create impactful, innovative solutions and constantly seek opportunities to learn and collaborate.

Education

B.Tech - Artificial Intelligence and Data Science **2023 - 2027**

Kongunadu College of Engineering and Technology CGPA : 8.92

Higher Secondary (Class XII) **2023**

Govt. Boys Higher Secondary School 86%

Achievements

- AI-Powered Plant Identification and Disease Classification System – FIRST PLACE
- Visual Drawing and Hand Tracking System – SECOND PLACE
- Completed N5, N4 Japanese Proficiency Language Test (JLPT)
- Participated in hackathon conducted at VIT Chennai
- Participated in hackathons conducted at SMVEC, Pondicherry

Projects

AI Powered Area Surveillance System for Theft Detection

- Identified the problem of ineffective manual surveillance systems that fail to detect suspicious activities in real-time.
- Developed an AI-based solution using Computer Vision and Machine Learning to monitor activities and detect suspicious behavior automatically.
- Worked as a Team Leader, implementing real-time monitoring and data processing while managing overall project development.

AI-Powered Plant Identification and Disease Classification System

- Identified the problem of delayed and inaccurate plant disease detection due to dependency on manual inspection and expert knowledge.
- Developed an AI-based solution using Image Processing and Machine Learning to identify plant species and classify diseases accurately.
- Worked as a Front-End Developer, designing the user interface and integrating real-time image input and result display.

Skills

- Programming Languages : Java
- Frond End : HTML, CSS
- Database : SQL
- Tools : Power BI

Certifications

- NPTEL – Internet of Things
- MongoDB – MongoDB Basics
- NVIDIA – Fundamentals of DL
- Yellow Matics -- Java Programming
- ML with AI Applications
- Deloitte –Data Analytics Job Simulation

Internship

Artificial Intelligence Trainee [Eagle Hi-Tech Softclou Pvt. Ltd., Chennai **]** **2025.06**

- Learned the fundamentals of Artificial Intelligence, Machine Learning, and Natural Language Processing through hands-on training and practical sessions.
- Developed a basic personalized chatbot using Python to answer predefined user-specific queries, gaining practical experience in conversational AI.
- Explored chatbot design, prompt engineering, and intent-based response handling while understanding the fundamentals of AI application development.

Soft Skills

- Problem solving ability
- Teamwork and Collaboration
- Time Management
- Adaptability

Languages

- English
- Tamil
- Japanese (N4 Level)
- Hindi
