SUGANTHI S

Artificial Intelligence & Data Science Student

Harur, Tamil Nadu | 7904236544 | suganthisathya1977@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Final-year B.Tech AI & Data Science student with hands-on experience through three internships and applied AI/ML projects in computer vision, deep learning, and NLP. Skilled in Python, DSA, SQL, and Power BI. Seeking an entry-level role in AI/ML or Data Science.

EDUCATION

B.Tech, Artificial Intelligence and Data Science *2023 – 2027 (Final Year)*

Vivekananda College of Technology for Women | CGPA: 7.94

TECHNICAL SKILLS

- Programming Languages: Python, C++ (Basic to Intermediate)
- Core CS: Data Structures and Algorithms (DSA)
- Data Visualization: Power BI
- Tools & Databases: Microsoft Office (Word, Excel, PowerPoint), SQL

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — Edu-versity | AMG Technologies LLP *Oct 2024 – Nov 2024*

Credential Platform Partner: Wipro

- Developed an Automatic License Plate Detection system using TensorFlow and OCR for vehicle number recognition.
- Built a COVID-19 Detection model using Convolutional Neural Networks (CNNs) with Flask deployment for AI-based image classification.

Web Development Intern — Code Bind Technologies, Chennai *9 Dec 2025 – 18 Dec 2025*

- Built a Business Management System using HTML, CSS, JavaScript, PHP, and MySQL.

Web Development Fundamentals with AI Basics Intern — AIIRF–EDII, Annamalai University *28 Jul 2025 – 14 Aug 2025*

In collaboration with Widezo Private Limited

- Gained foundational experience in web development and applied AI concepts.

PROJECTS

Automatic License Plate Detection

- Developed an AI-based license plate detection system using the TensorFlow Object Detection API and OCR for automatic vehicle number recognition.

COVID-19 Detection using Neural Networks

- Built a CNN-based deep learning model with Flask deployment to detect COVID-19 from chest X-ray images.

Breast Cancer Detection

- Developed a machine learning model to classify tumors as benign or malignant using patient diagnostic data.

Spam News Detection

- Built an NLP-based machine learning model to classify news articles as spam or genuine using text preprocessing and classification algorithms.

Business Management System

- Built a full-stack business management system using HTML, CSS, JavaScript, PHP, and MySQL.

CERTIFICATIONS

- Data Analytics Certification
- Artificial Intelligence Certification
- Artificial Intelligence Project Internship Certification
- UI & UX Design Project Internship Certification
- Web Development Project Internship Certification
- C++ Programming Certification

HACKATHONS & WORKSHOPS

- Participated in the Smart India Hackathon (SIH) as a member of Team CodeGenix.
- Attended the National Workshop "How AI Works in Client-Side Applications" at Kongu College of Engineering and Technology.
- Attended the National Workshop "UI & UX Design" at Kongu College of Engineering and Technology.

ACHIEVEMENTS

- Earned a 5-star badge in Python on HackerRank.
- Earned a 3-star badge in Data Structures and Algorithms on HackerRank.
