OBJECTIVE

To begin my career in a good organization where I can improve my technical skills, learn new things, and contribute to the company's growth while gaining valuable experience.

TECHNICAL SKILLS

- Microcontrollers STM32 (ARM Cortex-M), ESP8266, Arduino UNO.
- Embedded Systems: Arduino, IoT.
- Core Subjects: Digital Electronics, Analog Electronics, Microcontrollers (Arduino, ESP32, Raspberry Pi).
- PCB Design.
- Programming Languages: C++, Python.

EDUCATION

K.S.R. COLLEGE OF ENGINEERING, Tiruchengode. *2023 – 2027 (Current)*
Electronics and Communication Engineering
CGPA: 7.12 (up to 6th Semester)

G.H.S.S. CHITHODE, Erode. *2022 – 2023*
Higher Secondary Certificate (HSC) - Percentage: 70%

G.H.S.S. CHITHODE, Erode. *2020 – 2021*
Secondary School Leaving Certificate (SSLC) - All Pass

PROJECT

IoT Based Alcohol Detection

- A safety-focused alcohol detection system to identify intoxication levels and generate alerts.

Smart Irrigation System

- Used soil moisture sensors and a microcontroller to automate water flow to plants.
- Used IoT-enabled sensors, weather data, and automation to optimize water usage, reduce waste, and enhance crop health.

INTERNSHIP

SAN Engineering Solutions

- Gained hands-on experience in basic embedded technologies like Embedded C programming and real-time embedded applications.

Chip Crafts Private Limited

- Focused on designing a Printed Circuit Board (PCB) for a specific electronic application, covering schematic design, component selection, layout, and simulation using PCB design software.
- Goal was to create a compact, reliable, and efficient circuit that meets the functional requirements of the system, applying industry best practices throughout the process.

INTERPERSONAL SKILLS

- Problem Solving.
- Team Work.
- Adaptability.
- Positive Attitude.

CERTIFICATIONS

- Introduction to Industry 4.0 – NPTEL - 53%.
- Value Added Course - Advanced PCB Design: Tools for Innovation.
- Attended Workshops in Various Colleges.
- Python Programming – Bhumi.
