S.THOUSIFF MANASH

Erode, Tamil Nadu | manashthousiff@gmail.com | +91 99521 70407 |www. linkedin.com/in/thousiff-manash | https://github.com/manashs

PROFESSIONAL SUMMARY:

Aspiring SOC Analyst with a strong foundation in defensive cyber security, log analysis, and network traffic investigation. Hands-on experience with packet analysis, port scanning, and incident response documentation. Certified in cyber security through Google, IBM, and Cisco programs. Passionate about Blue Team operations and real-time threat detection.

TECHNICAL SKILLS :

- Basic Linux Security Concept
- Alert Triage & Escalation
- Brute Force & PortScan Detection
- Wireshark
- GitHub
- SOC Operations (L1 Level)
- Log Analysis
- Threat Identification
- Nmap
- Commands
- incident Response Lifecycle
- Malware Basics
- Tools & Technologies
- Windows Event Viewer
- TCP/IP Networking
- IPv4, DNS, HTTP/HTTPS

PROJECTS :

1. Port Scanner (Python) :

- Developed a custom port scanner to detect open ports on target systems.
- Identified active services and understood common service ports.
- Demonstrated understanding of network reconnaissance and attack surface detection.

2. Incident Response Playbook :

- Created a structured Incident Response Playbook based on industry standards.
- Covered phases: Identification, Containment, Eradication, Recovery, Lessons Learned.
- Designed documentation aligned with SOC operational workflow.

3. Network Traffic Analysis – Wireshark :

- Captured and analyzed 260+ network frames in a lab environment.
- Investigated traffic between internal IP (10.0.2.15) and external server.
- Identified protocol usage and verified normal vs suspicious activity.
- Documented findings with packet-level analysis.

4. Encrypted Chat Application :

- Developed a secure encrypted messaging application.
- Implemented secure message transmission logic.
- Used GitHub for version control and project management. GitHub.

INTERNSHIPS :

Redynox – Cyber Security Intern

- Gained exposure to SOC processes and security fundamentals.
- Participated in cyber security tasks and practical learning modules.
- Earned Internship Completion Certificate

Syntecxhub – Cyber Security Intern

- Worked on security-related tasks and documentation.
- Improved understanding of network monitoring concepts

Codec Technologies – Cyber Security Intern

- Completed hands-on cyber security projects.
- Strengthened foundational knowledge in defensive security

CERTIFICATIONS :

- Google Cyber security Professional Certificate
- Cisco Cyber security Certification
- Deloitte Cyber Security Certificate
- Smart Agentic AI Workshop Certificate
- CyberSisco Workshop Certificate
- AI and ML Workshop Certificate
- Smart Resume Writing Workshop Certificate
- Saviynt Identity & Access Management
- Blockchain Workshop Certificate

EDUCATION :

Bachelor of Engineering (B.E) – Computer Science and Engineering

Al-Ameen Engineering College [2022 – 2026]

Erode, Tamil Nadu
