Erode, Tamil Nadu, India

ABOUT ME

Detail-oriented Information Technology undergraduate with strong knowledge of Java, Python, SQL, Machine Learning and Computer Vision. Passionate about developing AI-based solutions and IoT applications. Seeking an opportunity to apply technical skills, problem-solving abilities and teamwork in a challenging software development role.

EDUCATION

Nandha Engineering College | 2023–2027

- B.Tech Information Technology
- CGPA: 8.0/10
- Coursework: Cloud Computing, Machine Learning, Data Analytics

Cheran Higher Secondary School, Karur

- HSC (2022–2023): 75%
- SSLC (2020–2021): 75%

SKILLS

- **Programming :** Java, Python, HTML
- **Database :** SQL
- **Tools & Platforms :** GitHub, HackerRank, OpenCV
- **Core Skills :** Machine Learning, Data Analytics, Problem Solving, Leadership, Teamwork
- **Languages :** English, Tamil

PROJECTS

- **Traffic Signal Detection :-** Developed a real-time system to identify and classify Red, Yellow and Green traffic lights using Python, OpenCV and Machine Learning/Deep Learning techniques, improving detection accuracy for real-time traffic monitoring applications.
- **Smart Landmine Detection System (IoT) :-** Designed an IoT-based system to identify hidden landmines and enhance public safety, integrating Arduino, GPS, IoT sensors and wireless communication modules, with a real-time monitoring interface for location tracking and emergency alerts.

ACHIEVEMENTS & CERTIFICATIONS

- Won First Prize in a Hackathon for the project “Smart Landmine Detection.”
- Completed internships in Data Analytics and Machine Learning.

HOBBIES

- Chess, Carrom
- Dancing, Singing

WORK EXPERIENCE

Internship At IDM Tech Park, Erode

- **Domain :** Data Analytics
- **Duration :** 15 Days
- Worked on data analysis concepts and visualization techniques.

Internship At KIO Tech, Erode

- **Domain :** Machine Learning
- **Duration :** 15 Days
- Gained practical experience in ML algorithms and model development.
