OBJECTIVE

Motivated and detail-oriented Electrical and Electronics Engineering graduate seeking an opportunity to apply my technical skills, learn from industry professionals, and contribute effectively to innovative engineering projects.

EDUCATION

GOVERNMENT COLLEGE OF ENGINEERING,SALEM | ELECTRICAL AND ELECTRONICS ENGINEERING

CGPA : 8.52(Upto Sem VI)

SRV HITECH MATRIC HIGHER SECONDARY SCHOOL | HSC

Percentage : 92.3 2021-2022

BHARATHIYAR GIRLS HIGHER SECONDARY SCHOOL | SSLC

Percentage : 98.2 2019-2020

PROJECTS

- **IoT-Based Water Level & Leakage Detection System**

Tech Stack: ESP32 Microcontroller, Ultrasonic Sensor (HC-SR04), Water Flow Sensor, Blynk IoT Cloud. Designed an automated monitoring system that measures liquid levels and identifies pipe leakages by comparing inflow/outflow logic.

- **Accident Detection System | Naan Mudhalvan Hackathon**

Tech Stack: Microcontroller, GSM Module, Accelerometer.
Developed a system to detect high-impact force (via accelerometer) and transmit precise location coordinates during emergencies.

INTERN EXPERIENCE

- Completed my 13 days internship training at **NLC Limited,Neyveli** gaining hands on experience on thermal power plant working and has a in depth knowledge about relays and circuit breaker
- Completed my 15 days internship training at **K R thoppur 400 kv substaion** ganing an exposure to power distribution and transmission system
- Completed a one-week internship at **Sriwin Electric, Salem,** where I gained practical exposure to electrical panel manufacturing, switchgear components, and basic industrial wiring practices. The internship helped me understand real-time power distribution systems, safety standards, and the functioning of electrical equipment used in industrial applications

SKILLS

- **Programming**: C, C++ (OOPS), MATLAB.
- **Tools**: Tinkercad (for circuit prototyping), MATLAB/Simulink,Wokwi,Autodek fusion360
- **Technical Knowledge**: Transmission Lines, Electrical Machines,Power Electronics.
- **Soft Skills**: Active Listening, Self-Learning, Adaptability, Leadership (Placement Coordinator).

ACHIEVEMENTS AND LEADERSHIP

- **First Place** - CODE BUZZ: Secured top rank in a departmental coding competition; demonstrated proficiency in logic building and C/C++ optimization.
- **Second Place** - RIDDLE HUNT: Inter-college technical event winner.
- **Placement Coordinator:** Managing communication between students and recruiters, honing professional coordination skills.

LANGUAGES

- **Tamil -** Fluent(Speaking,Writing)
- **English -** Fluent(Speaking,Writing)
