JEEVIYA YUVARAJ

Aspiring Software Developer

jeeviyayuvaraj@gmail.com | LinkedIn: linkedin.com/in/jeeviya-yuvaraj-a858122a3 | GitHub: jeeviyayuvaraj | Tamil Nadu, India

PROFESSIONAL SUMMARY

B.Tech Information Technology student with a strong foundation in Java, Python, web technologies, data structures and algorithms, and database fundamentals. Skilled in developing application and web-based projects using Java, HTML, CSS, Bootstrap, JavaScript, and SQL. A motivated problem-solver with an interest in software development, full-stack technologies, and data-driven solutions, seeking opportunities to apply technical skills and grow as a software professional.

EDUCATION

B.Tech in Information Technology
Nandha Engineering College, Tamil Nadu
Expected Graduation: 2027

TECHNICAL SKILLS

Programming:	Java, Python (Basics), C/C++
Web Technologies:	HTML, CSS, Bootstrap, JavaScript
Database:	SQL, MySQL
Data & Visualization:	Power BI (Basics), NumPy, Pandas, Matplotlib
Core Concepts:	Data Structures & Algorithms, Object-Oriented Programming, DBMS
Tools:	Git, GitHub, VS Code

PROJECTS

E-Commerce Application | HTML, CSS, Bootstrap, JavaScript

- Developed a responsive e-commerce application with a user-friendly interface for browsing products and interacting with an online shopping workflow.
- Applied HTML, CSS, Bootstrap, and JavaScript to create structured pages, responsive layouts, and interactive functionality.
- Focused on clean UI design, usability, and practical front-end development skills.

Social Media Application | HTML, CSS, JavaScript

- Developed a social media application concept with interactive user-focused features and a responsive interface.
- Used HTML, CSS, and JavaScript to implement dynamic front-end interactions and improve user experience.
- Strengthened skills in web development, JavaScript logic, and responsive UI design.

Student Management System | Java, MySQL, JDBC

- Built a Java-based application to manage student records with database connectivity using MySQL and JDBC.
- Implemented operations for adding, searching, updating, and deleting student information.
- Applied object-oriented programming concepts to create a structured and maintainable application.

Expense Tracker Application | Java, MySQL

- Developed a Java application for recording and managing daily expense information.
- Integrated MySQL database operations for organised storage and retrieval of transaction data.
- Improved practical understanding of application logic, database management, and software development practices.

CERTIFICATIONS

- NPTEL – Design & Implementation of Human-Computer Interfaces
- NPTEL – Privacy and Security in Online Social Media
- NPTEL – Cyber Security and Privacy

ADDITIONAL SKILLS

Problem Solving | Communication | Teamwork | Quick Learning | Adaptability
