SUMMARY

B.Tech in Information Technology with hands-on experience as a Frontend Development Intern, building responsive user interfaces and integrating REST APIs. Proficient in HTML, CSS, JavaScript, and version control with Git, with practical exposure to Angular and Spring Boot. Proven ability to deliver user-focused web projects, such as a real-time weather web application, and eager to contribute to frontend development teams.

EDUCATION

B.Tech, Information Technology | Nandha Engineering College, Erode, Tamil Nadu | (GPA: 7.9) 2023 - 2027

HSC (Class XII) | Rayar Kalvi Nilayam | (GPA: 84.33%) 2023

SSLC (Class X) | Rayar Kalvi Nilayam | (GPA: 95%) 2021

INTERNSHIP EXPERIENCE

Frontend Development Intern 2025 - 2025
Mist Solutions Private Limited | Tamil Nadu

- Executed frontend development tasks for live web projects, collaborating with a cross-functional team to deliver responsive UI components aligned with industry standards.
- Gained hands-on exposure to real-world project workflows, applying version control best practices using Git to manage code contributions across shared repositories.
- Assisted in integrating frontend interfaces with backend servers, reinforcing understanding of client-server architecture and REST API consumption.
- Tech stack: HTML, CSS, JavaScript | Tools: Git, Linux

PROJECTS

Weather Forecast Web Application 2024 - 2024

- Built a real-time weather web application that fetches live meteorological data — including temperature, humidity, and wind speed — via a third-party Weather API, delivering accurate location-based forecasts to end users.
- Engineered a fully responsive user interface using HTML, CSS, and JavaScript, ensuring consistent cross-device rendering and an intuitive, user-friendly experience.
- Implemented dynamic data binding between API responses and UI elements, enabling on-demand weather updates without page reloads.
- Tech stack: HTML, CSS, JavaScript | Integration: Weather API (REST)

SKILLS

- **Languages (Advanced):** Java, C++, C
- **Languages (Intermediate):** HTML, CSS, JavaScript, SQL
- **Frameworks & Libraries:** Angular (basic)
- **Databases:** SQL, MongoDB
- **Tools & Technologies:** Git, REST APIs
- **Soft Skills:** Problem Solving, Analytical Thinking, Teamwork, Communication, Time Management

ACHIEVEMENTS & CERTIFICATIONS

- Completed NPTEL certification courses in technology and computer science, strengthening theoretical foundations and practical problem-solving competencies.
- Earned certifications on Infosys Springboard covering programming, web technologies, and professional development, gaining exposure to industry-standard practices.
- Actively participated in technical symposiums, coding contests, and workshops at Nandha Engineering College and peer institutions, enhancing presentation and teamwork skills.
- Secured 95% in Class X board examinations, demonstrating consistent academic excellence.
