Career Objective :

To obtain a challenging position as a biomedical Engineer where I can apply my technical knowledge, problem-solving skills, and willingness to learn while contributing to the organisation's growth and improving healthcare technology.

Academics :

B.E – Biomedical Engineering

- Kongunadu College of Engineering and Technology, Trichy.
- CGPA – **7.5**
- Year of Passing: 2023 – Expected 2027

Higher Secondary School Certificate

- Shree Kalaimagal Matric Hr. Sec.School,Kulithalai.
- Percentage – 76%
- Year of Passing: 2023

Projects :

"Blue green Phototheraphy for infant jaundice"

● The main objective of the Blue-Green Phototherapy for Infant Jaundice project is to reduce elevated bilirubin levels in newborns safely and effectively using blue-green light therapy.

"Communication Aid For Hemiplegia Patients"

● The main objective of the Communication Aid for Hemiplegia Patients project is to help patients with limited speech or movement communicate their needs effectively.

Internship & Training :

- Completed an internship at Newton Bio Medical Service in Karur. Where I learned the basics of healthcare product sales and manufacturing while gaining knowledge of the production ,Sales and Service control and customer support.
- Completed an internship at Witspire Solutions Private Limited in Trichy. Where I learned the Basics of Embedded System using C Programming While developing Technical Skills and Iot sensor Working .
- Completed a Hospital Training at ABC Hospital in Trichy. Where I gained hands-on experience in handling Biomedical equipment and learned basic maintenance, troubleshooting, and Safety practices in a clinical environment.

Co-curricular Activities :

- Presented a paper on "Smart Charger" at MUTHTHAYAMMAL COLLEGE OF ENGINEERING AND TECHNOLOGY.
- Presented a Paper on "AI in Healthcare" at INDRA GANESAN COLLEGE OF ENGINEERING AND TECHNOLOGY.

Area of Interest :

- Diagnostic and Therapeutic Equipments.
- Anatomy and Human Physiology.

Technical skills:

- Biomedical instrumentation
- JAVA

Value Added Course :

- Biomedical Hardware Training Completed at ATHEENA PANDIAN.
- Modeling and Simulation using MATLAB and C.
