Technical Skills

- Automotive Domain Knowledge
- Circuit design and analysis
- Equipments Testing and Troubleshooting
- Problem Solving

Education

SONA COLLEGE OF TECHNOLOGY, SALEM
(2023-2026) B.E. in Elec & Comm Engineering
CGPA : 7.08

MURUGESAN INSTITUTE OF TECHNOLOGY, SALEM
(2017-2020) Diploma in Electrical & Electronics Engineering
Score : 85.01%

GUGAI HIGHER SECONDARY SCHOOL,SALEM
2017
SSLC
Score : 78.02%

Soft Skill

- Adaptability
- Time Management
- Teamwork
- Leadership
- Communication Skills

Certification

- Introduction to Internet of things for NPTEL
- LabVIEW
- Time Management from Great Learning

About Me

Electronics & Communication Engineer with 2.5+ years of hands-on experience in equipment maintenance, troubleshooting, testing, and control panel wiring within manufacturing and automotive environments. Skilled in preventive maintenance, circuit analysis, and reducing equipment downtime through fast, systematic fault diagnosis. Combines industry experience with academic EEE/ECE knowledge and IoT project development to deliver reliable, efficient engineering solutions.

Project

PROJECT - Smart Truck Security System using IoT

- Designed an IoT-based system to detect and prevent real-time fuel theft in trucks.
- Interfaced fuel sensors with a microcontroller to monitor tank levels continuously.
- Integrated a GSM module for instant SMS alerts on suspicious fuel loss.
- Enhanced fuel security and reduced theft-related losses in transportation.

Work Experience

Pricol Limited (Plant 1), Coimbatore
2021-2023
Manufacturing and Testing Engineer :

- Designed, tested, and commissioned new equipment to support production line requirements.
- Troubleshot and repaired electrical and electronic equipment, minimizing unplanned downtime.
- Responded promptly to equipment breakdowns, restoring operations to reduce production loss.
- Researched and implemented process improvements that increased operational efficiency.

Titan Engineering & Automation Limited (Unit 1), Hosur
2020-2021
Maintanence Engineer :

- Performed routine maintenance and troubleshooting on plant equipment to ensure continuous operation.
- Carried out preventive maintenance schedules to reduce the risk of unplanned breakdowns.
- Executed control panel wiring in line with electrical safety standards.
- Supported smooth day-to-day plant operations across shifts.
