## SUMMARY

Artificial Intelligence and Data Science student with a strong foundation in AI, Machine Learning. Passionate about learning emerging technologies, building practical solutions, and growing through real-world experience.

## EDUCATION

**B.Tech Artificial Intelligence and Data Science** **2023 - 2027**
Kongunadu College of Engineering and Technology, Trichy
CGPA: 7.50

**Higher Secondary Education (Computer Science)** **2022 - 2023**
Jeivikass Higher Secondary School
78.2%

## SKILLS

**Programming:** Java, Python, MySQL
**Frontend Development:** HTML, CSS
**Backend Development:** Flask
**Tools & Platforms:** GitHub, VS Code
**Languages:** English, Tamil

## PROJECTS

**AI-Powered Virtual Lawyer Agent** *Python, NLP, HTML/CSS | Role: Developed the web interface*
- Developed an intelligent legal assistance chatbot capable of answering legal queries using AI and NLP.
- Designed and built the conversational web interface for user-friendly legal guidance.
- Improved accessibility to legal information through automated responses.

**Deepfake Detection System** *Python, TensorFlow/OpenCV | Role: Trained the detection model*
- Built a deepfake detection model to identify manipulated images and videos.
- Trained the model using image-processing techniques and machine learning algorithms for classification.
- Enhanced digital content authenticity verification and misinformation detection.

**Sepsis Disease Prediction** *Python, Pandas, Scikit-learn | Role: Collected and processed the dataset*
- Developed a predictive model for early sepsis disease detection using patient healthcare data.
- Collected and processed the dataset, then applied supervised learning algorithms to improve prediction accuracy.
- Deployed the model as a web application for real-time analysis.

## EXPERIENCE

**Full Stack Development Intern** - *Infoem Solutions, Namakkal*
**(15 Days)**
- Worked on web application development using front-end and back-end technologies.
- Developed responsive user interfaces and integrated backend functionalities.
- Collaborated in project development and deployment activities.

## CERTIFICATIONS

- Japanese Language Proficiency Test (JLPT) N5 - Completed
- Machine Learning with AI Applications
- Core Java Programming
- Workshops on AI, Machine Learning, and Generative AI
- Participated in various technical workshops

## ACHIEVEMENTS & PARTICIPATION

- National Finalist - VIT Bhopal Health Hackathon
- Participant - Cyber Hackathon
- Presented technical papers in inter-college events
- Active participation in coding contests and technical events
