DHINESH MUTHUKUMAR

CYBERSECURITY ANALYST

Chennai, Tamil Nadu - Open to Chennai / Bengaluru / Coimbatore / Hyderabad and Remote

+91 7094253633 | DHINESHSP22@GMAIL.COM | LinkedIn - Dhinesh M

Profile Summary

Cybersecurity Analyst with 1 year of professional experience in cybersecurity operations, vulnerability assessment, web/API security testing, security monitoring, and compliance. Strong foundation in **TCP/IP, OSI, DNS, DHCP, NAT, VPN, VLAN, routing, switching, firewall and IDS/IPS concepts** through CCNA/CCNP and infrastructure training. Hands-on exposure to **Burp Suite, OWASP ZAP, Nmap, Wireshark, Microsoft Defender, Splunk and Wazuh**. Seeking a Cybersecurity & Network Security Engineer role focused on network security, firewall operations, SOC and security operations.

Core Competencies & Technical Skills

Network Security	TCP/IP, OSI Model, LAN/WAN, VLAN, NAT, VPN, Routing & Switching, Subnetting, Network Troubleshooting
Security	Firewall Policies, Access Control, IDS/IPS, Security Hardening, Vulnerability Management, Incident Response
VAPT	Web Application Security, REST API Security, OWASP Top 10, Authentication, Authorization, Input Validation
SOC/SIEM	Security Monitoring, Alert Investigation, Microsoft Defender for Endpoint, Splunk, Wazuh
Tools	Burp Suite, OWASP ZAP, Nmap, Wireshark, OpenVAS, SonarQube
Systems & Cloud	Windows, Linux, Ubuntu, Windows Server, Active Directory, Group Policy, DNS, DHCP, Microsoft Azure
Frameworks	ISO 27001, SOC 2, NIST CSF, CIS Controls, MITRE ATT&CK

Professional Experience

YOROSIS TECHNOLOGIES **FEB 2025 – JAN 2026**

Cyber security Analyst *REMOTE*

- Supported cybersecurity operations across **network security, vulnerability assessment, security monitoring and security documentation**.
- Performed **VAPT** on web applications and REST APIs, assessing authentication, authorization, input validation, access control and business logic vulnerabilities.
- Used **Burp Suite, OWASP ZAP and Nmap** for DAST, reconnaissance, endpoint discovery, service enumeration and attack-surface assessment.
- Reviewed network-facing services, open ports, firewall exposure and remote-access security during security assessments.
- Supported security monitoring and incident investigation using **Microsoft Defender for Endpoint**.
- Documented vulnerabilities with risk ratings, business impact, evidence, proof-of-concept details and remediation recommendations.
- Collaborated with development, DevOps, infrastructure and security teams to communicate findings and support remediation.
- Supported **ISO 27001 and SOC 2** internal audit activities through evidence collection, control validation and audit-readiness support.

INNOMETRIX TECHUB **MAR 2024 – JUL 2024**

Cybersecurity Intern *Salem, Tamil Nadu*

- Supported development of security architecture and security proposals for client environments.
- Assisted in preparing technical security proposals and RFP responses based on client security requirements.
- Supported to AI security application development by researching security-focused features, validating application behavior, and supporting model testing, helping enhance functionality reliability and strengthen security-focused use cases.

Key Achievements

- Gained hands-on experience in web application and REST API security testing using Burp Suite and OWASP ZAP.
- Supported ISO 27001 and SOC 2 compliance and internal audit activities.
- Built a strong networking foundation through CCNA/CCNP-level training, including routing, switching, VLANs, OSPF, BGP, DNS, DHCP, and VPN.
- Participated in cybersecurity community events including OWASP, DEF CON, and cybersecurity meetups.

Education

B.E Cybersecurity – Paavai Engineering College (2020–2024)

Trainings & Certifications

Google Cybersecurity Specialization | **CCNA, CCNP Networking, Windows server & Active Directory Training** | **Fullstack Web Engineering** | **AWS Educate Introduction to Cloud 101** | **API Penetration Testing**
