

DIVYADHARSHINI K

Biomedical Engineering Student

divyadd073@gmail.com | 9789159432
Trichy, Tamilnadu

CAREER OBJECTIVE

https://www.linkedin.com/in/divyadharshinikannan

To utilize my software and hardware skills in a challenging environment, contribute to the organization through problem-solving, and continuously develop my technical and professional skills.

EDUCATION

B.E. Biomedical Engineering 2023 – 2027
Kongunadu College of Engineering and Technology | CGPA: 8.00

HSC (12th Standard) 2023
Government Girls Higher Secondary School ,Thathaiyangarpet | Percentage: 77%

SSLC (10th Standard) 2021
Government Girls Higher Secondary School,Thathaiyangarpet | Pass

TECHNICAL SKILLS

Core : Biomedical Instrumentation

Technical: Java,Python

SOFT SKILLS

- Adaptability
- Teamwork
- Time Management

PROJECTS

Low cost knee rehabilitation and pain relief system

– Developed a wearable system to monitor knee rehabilitation exercises and provide real-time feedback for safe and effective recovery.

– Implemented an Arduino Uno-based system using a flex sensor ,LCD, and vibration motor to detect incorrect knee movements and provide instant alerts.

Smart IV drip monitoring system with automatic flow cutoff mechanism

– Developed a smart system to monitor IV fluid levels and automatically stop the fluid flow when the bottle reaches a critical level.

– Implemented the system using Arduino UNO to process Load cell data, monitor IV fluid levels ,generate alerts and automatically control the IV Flow.

ACHIEVEMENTS

- Smart India Hackathon –Internal Round Selected
- NPTEL Biomechanics-Silver Medal(75%)

INTERNSHIP

- Completed an internship as a lab intern at EVALUATE BIOSCIENCE Trichy.
- Completed an internship as an Embedded System at WITSPIRE SOLUTIONS.
- Completed a Hospital Training at ABC HOSPITAL in Trichy.

AREAS OF INTEREST

- Diagnostic and Therapeutic Equipments

VALUE ADDED COURSE

- Biomedical Hardware Training
- Modelling and Simulink using MATLAB

Membership Details

- Green club
- Zygote Club
