Portfolio - https://www.behance.net/somasundharam2

## PROFESSIONAL SUMMARY

Mechanical Engineer with 6 years of experience, including 2+ years in SPM machine and defence vehicle structural design and fabrication. Skilled in 3D modeling and 2D drafting (Autodesk Inventor, AutoCAD), GD&T, Assembly Design, Pneumatic Circuits, BOM preparation and design optimization. Proven ability to collaborate with assembly and supplier teams to deliver reliable and cost-effective solutions.

## CORE SKILLS

### - Design Tools

- Autodesk Inventor
- AutoCAD
- Creo

### - Design Knowledge

- GD&T
- DFM, DFA
- ECN, ECO
- BOM Preparation
- Pneumatic Circuit Design

### - Other Core Skills

- Machine Assembly
- Machine repair
- Team work

- Supplier Co-ordination
- Process Flow
- MS Office

## PROFESSIONAL EXPERIENCE

### - Current position

- **Adhivinayagar Enterprises - Erode (ELGI air compressor dealer)**

Field service engineer | April 2026 - Current

- Reciprocating and Screw air compressor Field service engineer.

- Attend complaints and schedule service for air compressor at customer site.

- Commissioning new Air compressor and air dryer.

- Resolve problem and report to office.

### - Experience as a R&D and Design engineer

- **BEML Limited – Bangalore (On-site, deputed by CADOpt Technologies)**

Assistant R&D Engineer | Sep 2025 - Feb 2026

- Work as a structural design engineer for defense vehicles.

- Design new parts as per application like brackets,spacer,Mounting plate,etc...

- Create 2D & 3D drawings with GD&T for manufacturing.

- Prepare part book for assembly purpose.

- Prepare manuals for vehicles specifications.

- **Gabriel India Limited - Hosur (On-site, deputed by CADOpt Technologies)**

Assistant R&D Engineer | Dec 2023 – Sep 2025

- Design fabricated parts for shock absorber assembly SPM machines.

- Create 2D & 3D drawings with GD&T for manufacturing.

- Prepare BOM and pneumatic circuit diagrams.

- Prepare manuals for SPM machines.

- Collaborate with assembly team.

- Follow up the assembly Process till machine dispatch.

- Design new parts as per assembly team’s requirement.

- If any rework requirement support for assembly team.

## - Experience as a Service engineer

- **Eltech Equipments - Tiruppur ( Air compressor own manufacturer)**

Service Engineer | Feb 2022 – Nov 2023

- Handled reciprocating air compressor and air dryer service.

- Customer support, commissioning.

- Troubleshooting like Oil change, pressure adjustment, Alignment check, air leakage,

Noise arrest, etc.,.

- Air Compressor assemble and dismantle.

- Check spares condition and replace parts like Piston, Rings, Connecting rod, Bearings etc.,.

- Motor dismantle and assemble, Bearings Change.

- **Diamond Diesel Service - Erode (Bosch automobile parts dealer)**

Service Technician | Mar 2020 – Feb 2022

- Service diesel pumps and Injectors for Heavy/Light vehicles, Generators.

- Diesel pump assemble and dismantle.

- Check spares condition and Replace parts like Elements and Cam shaft, bearings, etc.,.

- Check nozzle quality and performed pressure calibration.

## EDUCATION

- B.E. Mechanical Engineering – J.K.K.N CET, Anna University (2019)

Complete with 6.49 cgpa

- HSC - State Board Tamilnadu, (2015)

Complete with 69%

- SSLC - State Board Tamilnadu, (2013)

Complete with 81%

## Personal Details

Date of Birth : 28/May/1998

Marital Status : Unmarried

Hometown : Erode

Current City : Erode

## LANGUAGES

- Tamil (R/W/S)

- English (R/W/S)
