Professional Summary

Engineering student specializing in AI enabled software development , with hands-on experience in building web applications and real-time systems. Skilled in problem-solving, clean code practices, and developing efficient, user-focused solutions. Hands-on experience in developing AI-enabled software projects, ERP tool development and an open-source NVDA add-on project, and solving complex problems through efficient and logical coding practices. Highly motivated to intern with a forward-thinking organization to gain practical industry experience and contribute to impactful, AI-driven software solutions.

Technical Skills and Interests

Programming Languages: Python, Java (Basics)
Tools & Platforms: VS-code, Git & GitHub, XAMPP
Concepts Logical Problem Solving, Generative AI

Personal Projects

•**AI-Vision Assistant** *February 2026*

Developed an open-source accessibility tool to navigate and interact with inaccessible software interfaces.

- Tools & technologies used: NVDA, Python, wxPython, Pillow, Open AI models
- Implemented a "AI-Vision Assistant Mode" that captures screenshots to identify inaccessible on-screen elements, enabling full keyboard navigation and automated mouse interactions for unrecognized software options, Specially built for VI people's and Vision-Aid NGO.

•**Canteen ERP Tool for SAIL-Salem Steel Plant** *April 2026*

Developing a canteen ERP tool for inventory, preparation, distribution, and sales management.

- Tools & technologies used: PHP, HTML, CSS, JavaScript, MySQL
- Working on database design and backend development for a canteen ERP system for SAIL (Steel Authority of India Limited) – Salem Steel Plant, handling data management, API integration, and core logic.

Practical Experience

•Developed an open-source AI vision assistant for visually impaired users, using computer vision to detect on-screen elements and enable accessible navigation and interaction.

•Building a canteen ERP system for SAIL (Steel Authority of India Limited) – Salem Steel Plant, managing inventory, order processing, food preparation, and sales operations with integrated backend logic.

Education

•**Excel Engineering College** *2023-2027*
B.E. in Electrical and Electronics Engineering CGPA : 7.5

•**Vaideeshwara Higher Secondary School** *2022-2023*
Higher Secondary Certificate, State Percentage: 75

•**SSV Educational Institutions** *2020-2021*
Secondary School Leaving Certificate, State

Certifications

•**ALFA SWITCHGEAR,** Internship - Nasiyanoor, Erode *Dec 2024*

•**DAIKIN,** Internship - A.C.D.C Training Center, Sri City, Andhra Pradesh *Jul 2025*

•**NPTEL,** Programming in Java *Oct 2025*
