TEENA M

Aspiring VLSI / RTL Design Engineer
Phone: +91 9345688071 | Email: teenamurugan70@gmail.com
LinkedIn | GitHub

CAREER OBJECTIVE

Detail-oriented ECE graduate seeking a Design Engineer (VLSI/RTL) role to apply hands-on experience in RTL design, Verilog/SystemVerilog, and UVM-based functional verification. Strong foundation in digital electronics and embedded circuit de track record of quickly learning industry EDA tools and contributing to design and verification workflows.

CORE TECHNICAL SKILLS

- VLSI / Digital Design: RTL Design, Digital Electronics, Circuit Fundamentals
- Circuit Theory: Analog & Digital Circuit Analysis, Circuit Fundamentals
- Signal Processing: Signal Processing Fundamentals, Digital Signal Analysis
- HDL: Verilog, SystemVerilog
- Verification: UVM Methodology, Functional Simulation, Testbench Concepts
- EDA Tools: Xilinx Vivado, EDA Playground
- Programming: C, Java (Basics)

INTERNSHIPS

Internship Trainee – VLSI Design (RTL & UVM) *Mar*
Taras Systems

- Completed a focused internship in VLSI design, RTL development, and UVM-based verification
- Designed and simulated digital circuits using Verilog/SystemVerilog
- Applied functional verification methodologies using UVM to validate design behavior

Internship Trainee – Embedded Systems *Jul*
Mircosun Technology, Salem

- Trained in basic electronics and embedded system design concepts
- Built understanding of circuit fundamentals directly applicable to digital hardware design
- Gained hands-on experience with microcontroller-based applications

Web Development Intern *Jun 2025 – Jul*
Embuzz Technologies Pvt. Ltd., Salem

- Gained hands-on experience with the WAMP stack (Apache, MySQL, PHP) during industrial training
- Built responsive web pages using HTML, CSS, and JavaScript

PROJECTS

Heart Rate Monitoring System

- Developed an embedded system for real-time heart rate monitoring using Arduino Uno
- Implemented sensor data acquisition and BPM calculation logic
- Ensured accurate real-time data processing and display, demonstrating circuit-to-software integration

Education-Based Website

- Built a responsive web application for educational content delivery
- Enhanced user experience through interactive UI components
- Optimized performance using efficient front-end development practices

EDUCATION

K.S.R College of Engineering — B.E (ECE) *CGPA: 8.18 (Till 6th Seme*
Vani Vidhyalaya Matri Higher Secondary School — HSC

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Introduction to Industry 4.0 & Industrial IoT (Elite), IIT Kharagpur, 2025
- NPTEL – Cloud Computing, IIT Kharagpur, 2025
- AICTE Virtual Internships in AI-ML, Android Development, Networking & Data Science (EduSkills, 2024–2025)
- 3D Scanning Workshop, Insource Design Tech, Salem (Dec 2023)
- Learnathon 2024 – Completed 8 Courses (ICT Academy)
- Technical Paper, ZINNIA'24 Symposium, Government College of Engineering, Erode (2024)
- Idea Presentation – CYBENZEC 2K26, Karpagam Academy (Feb 2026)
- Ideology Event, KRIYA 2025, PSG College of Technology (Mar 2025)
- Technical Fest – AVANTAA, Sri Krishna College of Technology (Feb 2024)

SOFT SKILLS

Communication | Teamwork | Problem-Solving | Time Management | Leadership | Adaptability
