### Professional Summary

I want to start my career as a Production Engineer. I have learned engineering fundamentals and basic CAD software like CATIA V5, Engineering drawing, Basic fundamental manufacturing concepts during my studies. As a fresher, I am ready to learn from experienced engineers and contribute to the company's projects.

### Skills

- **CAD Software:** CATIA V5
- **Engineering Knowledge:** Engineering Drawing, GD&T (Basic), Manufacturing processes (Basic).

### Internship Experience

**NLC INDIA LTD.**

- Completed industrial training in the SME Section at NLC India Limited.
- Learned the basics of industrial gearbox design, maintenance, and failure analysis.
- Observed mechanical equipment inspection and quality practices.
- Gained practical exposure to industrial maintenance and safety procedures.

**SAIL – Salem Steel Plant**

- Studied stainless steel manufacturing through Hot Rolling Mill (HRM) and Cold Rolling Mill (CRM) operations.
- Acquired knowledge of preventive maintenance, hydraulic and lubrication systems, boilers, compressors, and mechanical workshop practices.
- Strengthened understanding of industrial safety, quality assurance, and plant maintenance in a large-scale manufacturing facility

### Projects

**Solar-Powered Grass Cutter (Mini Project )**

- Designed and fabricated a solar-powered grass cutter with adjustable cutting height.
- Integrated solar-powered components for eco-friendly operation.
- Tested and optimized the prototype for efficient grass cutting.
- Developed practical skills in fabrication, assembly, and testing.

### Education

**BE .in MECHANICAL ENGINEERING AT Government College Of Engineering Salem : CGPA: 7.68**

**Higher Studies At Government Higher Secondary School, Pudupattu, Mark Percentage : 75%**

### Co-Curricular Activities

- Participated in CNC Programming Training conducted by DMW, Erode.

### Extra-Curricular Activities

- Played zonal level volleyball Matchs in Pavai college.
