## PROFESSIONAL SUMMARY

Computer Science Engineering graduate with a strong foundation in Python programming, SQL, web development, and machine learning. Hands-on experience developing an AI-powered cybersecurity threat detection system using Python, Scikit-learn, and Django. Proven ability in data preprocessing, model training, and building scalable software applications.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming:** | Python, SQL, MySQL |
| **Backend & Frontend:** | Django, React.js, HTML5, CSS3 |
| **Machine Learning:** | Scikit-learn, NumPy, Pandas, Random Forest, Data Preprocessing |
| **Tools:** | GitHub, VS Code, Google Colab |

## PROJECTS

**AI-Powered Cybersecurity Threat Detection System**

- Engineered a threat detection system using Python, Pandas, and Scikit-learn to identify cyberattacks.
- Implemented and optimized a Random Forest Classifier for predictive analysis of security risks.
- Developed an interactive dashboard concept using React.js and Django for real-time security reporting.
- Utilized Google Colab for ML experimentation and VS Code for production-level application development.

## PROFESSIONAL EXPERIENCE

**Besant Technologies** — **June 2026**
Full Stack Python Intern — Chennai, TN

- Developed scalable web application components using Python and modern web frameworks.
- Collaborated on building user-friendly frontend interfaces using HTML and CSS.
- Gained hands-on experience in the complete software development lifecycle (SDLC).

**CADD Experts Institution** — **May 2025 – April 2025**
Web Design Intern — Remote/On-site

- Designed and implemented responsive web pages focusing on UI/UX best practices.
- Integrated interactive features to enhance user engagement across web platforms.

## EDUCATION

**Satyam College of Engineering and Technology** — **2022 – 2026**
Bachelor of Engineering in Computer Science and Engineering — CGPA: 7.9 / 10.0

**Higher Secondary Certificate (HSC)** — **74%**

**Secondary School Leaving Certificate (SSLC)** — **72%**

## ADDITIONAL STRENGTHS

- Strong problem-solving and analytical thinking capabilities.
- Committed to continuous learning and staying updated with emerging AI/ML technologies.
- Solid understanding of database management and software engineering fundamentals.
