MATTA MALYADRI AARYAN SRINIVAS

Software Developer

+91 9032925747 | aaryansrinivas16@gmail.com | linkedin.com/in/aaryan-srinivas | github.com/Aaryansrinivas | leetcode.com/u/Aaryansrinivas | Salem, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience across the full software development lifecycle, from designing REST APIs and databases to building user interfaces with React.js. Skilled in Python, Django REST Framework, and Flask, with strong practices in version control, automated testing (90%+ coverage), and CI/CD using Docker and GitHub Actions. Solved 100+ LeetCode problems (Medium level), reflecting strong Data Structures and Algorithms fundamentals. Currently pursuing B.E. in Cyber Security (CGPA: 8.7).

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL, C
- **Core:** Data Structures & Algorithms, Object-Oriented Programming, Software Testing, Agile Development
- **Backend:** Django, Django REST Framework, Flask, FastAPI, REST APIs, JWT Authentication, OAuth 2.0, API Rate Limiting
- **Frontend:** React.js, HTML5, CSS3, JavaScript, Bootstrap
- **Databases:** PostgreSQL, SQLite3, Django ORM
- **DevOps & Tools:** Docker, GitHub Actions (CI/CD), Git, GitHub, Postman, Bandit (Security Scanning), Swagger/OpenAPI
- **Cloud & Deployment:** AWS S3, AWS CloudFront, Render, Vercel

PROJECTS

Full-Stack Blog Platform (Live Demo | GitHub)
Django REST Framework, React.js, PostgreSQL, Docker, GitHub Actions

- Built a full-stack blog platform (Django REST Framework, React, PostgreSQL), packaged it in Docker, and deployed it live on Vercel.
- Added JWT/OAuth 2.0 login, comments, likes, and search. Hit 90% test coverage across 57 tests and automated deployment through GitHub Actions with Bandit scans.

CDN Performance Analyzer & Optimization System (GitHub)
Python, Flask, React.js, AWS S3, AWS CloudFront

- Built a Flask + React tool that tracks CDN latency, DNS lookup time, and HTTP response metrics across endpoints in real time.
- Used the data to spot bottlenecks and cut average request latency 20% by tuning AWS S3 and CloudFront.

Gesture-Based Volume Control System (GitHub)
Python, OpenCV, MediaPipe, NumPy

- Built a touchless volume control app using OpenCV and MediaPipe hand tracking, running at 30+ FPS on live webcam input.
- Mapped hand gestures to system volume through pycaw, keeping response time under 100ms.

Video Analyzer & AI Quiz Generator (GitHub)
Python, Streamlit, Gemini API

- Used the Gemini API to summarize videos and generate quiz questions automatically, hitting 90% accuracy on content extraction.
- Built a Streamlit interface with one-click PDF export for instant, ready-to-use assessments.

INTERNSHIP

Python Developer — Infosys Springboard Virtual Internship Program Nov 2025 – Jan 2026

- Built a real-time Gesture-Based Volume Control System (Python, OpenCV, MediaPipe) as the main project, and completed a structured curriculum covering OOP, data structures, and application development.

ACHIEVEMENTS & CERTIFICATIONS

- LeetCode: Solved 100+ problems (Medium level).
- NPTEL Cloud Computing (IIT): Silver Badge — Top 5% nationally.
- Google Cloud — Develop GenAI Apps with Gemini: hands-on certification.
- Datacom Software Development Job Simulation (Forage): Agile workflows, code reviews, technical documentation.

EDUCATION

Bachelor of Engineering in Cyber Security 2023 – Present
Mahendra Engineering College, Salem, Tamil Nadu | CGPA: 8.7 / 10
