PROFESSIONAL SUMMARY

B.E. Computer Science and Engineering undergraduate with hands-on experience in full-stack web development and AI-powered application development. Skilled in Java, Python, JavaScript, React.js, Node.js, Flask, REST API development, MySQL, MongoDB, Git, and GitHub. Experienced in developing responsive web applications, integrating APIs, managing databases, and implementing AI-based solutions. Strong problem-solving and debugging skills with the ability to quickly learn and adapt to new technologies.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C
Frontend Development: React.js,HTML5, CSS3, Tailwind CSS, Bootstrap
Backend Development: Node.js, Flask, FastAPI, REST API Development, API Integration
Databases: MySQL, MongoDB
AI Engineering: OpenAI API, Google Gemini API
Tools & Practices: Git, GitHub, VS Code, Postman, Debugging, Team Collaboration

PROJECTS

AI Interview Generator React.js |MySQL | Gemini API

- Built a full stack AI-powered interview preparation platform enabling role-based mock interviews for job seekers.
- Integrated Gemini API with prompt engineering to dynamically generate role-specific interview questions.
- Designed and developed REST APIs in Flask for resume analysis and automated interview evaluation.
- Built a responsive React.js frontend and managed the full SDLC using Git and GitHub.

Life Link – Blood Bank Management System React.js | Node.js | MongoDB

- Developed donor registration and blood request management modules for a full stack web application.
- Designed and implemented REST APIs and MongoDB schemas to support real-time donor-request matching.
- Built a responsive, mobile-friendly frontend to improve accessibility for donors and hospitals.

Smart Farm AI Assistant HTML5 | CSS3 | JavaScript | AI

- Built an AI-powered crop recommendation system applying Machine Learning models to agricultural data.
- Designed interactive dashboards to visualize agricultural insights for end users.

INTERNSHIP EXPERIENCE

MERN Stack Development Intern — Xplore IT Corp

- Developed full stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Built and tested REST APIs using Postman; collaborated with a team using Git and GitHub for version control.

Web Development Intern ------Net Tel solution

- Built responsive websites using HTML, CSS, JavaScript, and React.js, improving load performance and usability.

AR/VR Intern — PRAYA Labs

- Contributed to the development of immersive AR/VR applications as part of a cross-functional team.

EDUCATION

B.E Computer Science and Engineering (Akshaya college of engineering and technology)	2023-2027
HSC (Government higher secondary school)-75%.	2022-2023
SSLC (Government higher secondary school)	2020-2021

CERTIFICATIONS & ACHIEVEMENTS

Certifications: NPTEL Elite – Java | Full Stack Development – KGiSL | MERN Stack Internship
Achievements: First Prize – Elocution | Third Prize – Paper Presentation
