ENIYAVAN RAJENDRAN

B.E. CSE (Cyber Security) | Final Year Student

Erode, Tamil Nadu, India ◇ eniyavan.connect@gmail.com ◇ LinkedIn ◇ +91 8248381154

OBJECTIVE

Final-year B.E. CSE (Cyber Security) student with a strong foundation in **Java, SQL, MySQL, and software development**. Seeking an entry-level **Cloud Data Engineer** role to apply **programming, database, data processing, and problem-solving skills**.

EDUCATION

Nandha Engineering College, Erode — B.E. in CSE (Cyber Security), 2023–2027 | CGPA: 7.9/10

S. M. Govt. Hr. School, Erode — Class XII, May 2023 | Score: 83.5%

SKILLS

Programming: Java, SQL, Python(Basic)

Database: MySQL

PROFESSIONAL EXPERIENCE

Cybersecurity Intern | Csuite Tech Labs **May 2025 - June 2025**

- Analyzed network traffic and system logs to identify suspicious activities and potential security threats.
- Used security and forensic tools to investigate incidents and supported vulnerability assessment and basic incident response.
- Gained practical exposure to network security, digital forensics, security analysis, and incident investigation.

Network Intern | Prompt Info Tech **Dec 2025 - Jan 2026**

- Assisted with network configuration, connectivity troubleshooting, and network performance monitoring.
- Worked with IP addressing, routing, switching, and basic network security concepts.
- Developed practical troubleshooting and problem-solving skills in a real-world technical environment.

PROJECTS

Hardware Security Module | ESP32 • IoT • Sensors

- Built an IoT-based real-time monitoring system using an ESP32 microcontroller.
- Integrated temperature and voltage sensors for continuous environmental and electrical monitoring.
- Designed alert mechanisms for abnormal temperature and voltage levels.
- Implemented data transmission for remote access as part of the monitoring system.

Blockchain for Preventing Counterfeit Drugs | Blockchain • QR Verification • UUID

- Developed a blockchain-based system to prevent counterfeit drugs in the pharmaceutical supply chain.
- Implemented QR-code verification to check medicine authenticity in real time.
- Used unique identifiers (UUIDs) to track medicines from manufacturer to customer.
- Added tamper detection and alert features for suspicious activities.

CERTIFICATES

- Cyber Security and Privacy — NPTEL
- Blockchain for Enterprises — Infosys
- TNSKILLS India — Participation

CORE STRENGTHS

Problem-solving | Teamwork | Adaptability
