PROFESSIONAL SUMMARY

An Aspiring Mechanical Engineer with a strong interest in Mechanical Design, Manufacturing, and Research & Development (R&D). Quick to adapt, learn, lead, and collaborate in interdisciplinary environments. My goal is to build a successful and sustainable career while contributing to innovative and practical engineering solutions.

Rocker-Bogie Suspension for Mine Robots

- Designed a six-wheel rocker-bogie suspension for improved mobility on uneven and loose terrain.
- Developed the 3D CAD model and optimized wheel width and lug pattern for better traction.
- Selected aluminum alloy for the body and steel for joints/fasteners for weight reduction and strength

INTERNSHIP EXPERIENCE

SAIL Salem Steel Plant.
Dec2025 - Jan 2026

- Proud to have completed my internship at SAIL Salem Steel Plant
  The "real-world" side of Mechanical Maintenance at such a prestigious plant was an invaluable experience. From understanding complex machinery to observing industrial safety protocols, this internship has deepened my passion for the field.

EDUCATION

Higher Secondary
2020 - 2023
Holy cross Matric Hr. Secondary School **Result:** 81.5%

B.E. in Mechanical Engineering
2023 - 2027
Present Government College of Engineering, Salem - 11 **Result:** 7.44

CERTIFICATIONS

Business Fundamental for Entrepreneurs
Jan 2025 - Apr 2025
A Twelve Week Course on Swayam - NPTEL Portal

SKILLS

- Solidworks (Basics)
- Problem solving.
- Organising and managing team work
- Logical thinking

VOLUNTEERING & ACTIVITIES

- Donated blood through college-organized blood donation camps, contributing to social responsibility and community welfare.
- Actively participated in college functions, including Chakra Festival, demonstrating and teamwork skills.
