PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with hands-on experience in Pythonbased AI/ML projects and a strong foundation in Java, C, and SQL. Actively strengthening Data Structures & Algorithms and problem-solving skills. Seeking a Software Developer Intern/Fresher role to contribute to scalable applications while learning industry best practices.

EDUCATION

Aug 2023 – May 2027 | Government College of Engineering – Erode, Tamil Nadu
Bachelor of Computer Science and Engineering – **CGPA: 8.03%**
Jun 2020 – May 2021 | SKV Girls Matric Higher Sec School ,Kandampalayam,Namakkal Tamil Nadu
Class XII – **Percentage: 83.03%**

SKILLS SUMMARY

Programming Languages: Java, HTML, CSS, SQL
Databases MySQL,Mango DB
Tools: Antigravity, Eclipse, VS Code,
Soft Skills: Led small project teams during academic projects, collaborated effectively in group development environments, communicated technical concepts clearly, managed multiple deadlines efficiently, adapted quickly to new frameworks and tools.

CERTIFICATIONS

- Cyber Security Workshop – Cyberwolf
- Data Science – Oracle Academy (Naan Mudhalvan)
- AIML Workshop – Sri Krishna College ,AIML – GUVI
- Cyber Security – Google (Naan Mudhalvan)
- NPTEL- Cryptography and Network Security

PROJECTS

Lung Disease Detection System
Tech: Python, Scikit-learn, Pandas, NumPy
- Designed an end-to-end ML workflow including data cleaning, feature engineering, and model training for lung disease prediction.

AI-Driven Traffic Management System
Tech: Python, Pandas, NumPy, Scikit-learn
- Developed an AI-based system to analyze traffic patterns and identify accidentprone conditions from historical traffic data.

Online Travel Booking System(MERN STACK)
Tech: React.js ,Node.js ,Express.js ,MongoDB ,HTML5 ,CSS3 ,JavaScript , REST API
- To develop an online travel booking system for managing travel packages efficiently.
