NITHISHA BALAKRISHNAN

B.Tech (Artificial Intelligence and Data Science)
nnithisha711@gmail.com | +91 93614 89301 | 3/98 Sengodampalayam, Namakkal
LinkedIn | GitHub

CAREER OBJECTIVE

Motivated undergraduate with a patent-granted safety innovation and a published IEEE research paper, backed by hands-on experience delivering real-time applications, IoT-integrated systems, and business intelligence dashboards. Skilled in Java and IBM SPSS Modeler, with a proven track record of building impactful, real-world solutions — eager to bring the same drive and problem-solving ability to an entry-level role.

EDUCATION

B.Tech, Artificial Intelligence and Data Science — M. Kumarasamy College of Engineering
CGPA: 7.48 | 2023 - Present

HSC — SKV Matric Hr. Sec. School, Namakkal | 63% | 2023

SSLC — SKV Matric Hr. Sec. School, Namakkal | All Pass | 2021

SKILLS

Programming: Java, HTML

Tools & Platforms: IBM SPSS Modeler, VS Code, Android Studio, Firebase, GitHub

Soft Skills: Adaptability, Communication, Time Management

PROJECTS

Blaze-Zero: Smart Wildfire Detection and Mobile Alert System | *2026* | *Team of 4* | *Frontend Developer*

- Developed a real-time wildfire detection system with mobile-based alert monitoring, live incident tracking, and Firebase-powered data synchronization.
- Integrated ESP32-based sensor modules with GPS tracking for automated hazard detection and faster emergency response.

Agile Voyager: Smart Travel Itinerary Planner | *2025* | *Team of 4* | *Frontend Developer*

- Built a travel planning application that helps users create personalized trip plans easily.
- Suggests destinations and organizes schedules based on user preferences, budget, and time, providing a simple and user-friendly interface for smooth, hassle-free travel planning.

Smart Helmet: A Helmet-Based Driving Control and Accident Prevention System for Two-Wheeler Vehicles
2024 | *Team of 4* | *Patent Granted*

- Built an IoT-based safety system for two-wheeler riders that detects accidents, tracks location via GPS, and sends automatic emergency alerts.
- Notifies hospitals and family members instantly, helping ensure a faster response in emergencies.

CERTIFICATIONS

- Data Science for Beginners, Wipro Future Skills (2026)
- Business Intelligence, IBM CEP (2025)
- HackerRank Java (Basic) Certification (2025)

ACHIEVEMENTS

- **Patent:** A Helmet-Based Driving Control and Accident Prevention System for Two-Wheeler Vehicles — Patent Granted (South Africa); Grant Date: 25 March 2026; Patent Number: 2025/06440
- **Project Exhibition:** Showcased AgileVoyager: A Smart Travel Itinerary Planner at M. Kumarasamy College of Engineering (2026)
- **Published Paper:** AgileVoyager: Smart Travel Itinerary Planner — 3rd International Conference on Emerging Applications of Material Science and Technology (2025)
