Summary

Final-year Electronics and Communication Engineering student transitioning into Software Engineering with hands-on experience in HTML, CSS, JavaScript, Python. Experienced in web development, REST APIs, databases.

Technical Skills

Languages: HTML5, CSS3, JavaScript, Python | **Databases:** MySQL, Supabase | **Tools:** Git, GitHub, Linux, VS Code
Deployment: Vercel, Render, Netlify, Railway | **AI:** Google AI Studio, Google Antigravity, Cursor, Stitch

Experience

247 Letters Tech — Bengaluru, India
Full Stack Developer Intern — *Jun 2025 – Jul 2025*

- Worked on web application development using HTML, CSS, JavaScript, Python, Flask, MySQL, and REST APIs.
- Used Git and GitHub to manage source code and complete development tasks.
- Deployed applications using Vercel and Render and helped identify and resolve application issues.

Projects

AquaFeed – Fisheries Feed Management System | *HTML • CSS • JavaScript • Python • Flask • MySQL • Vercel • Render*

- Built a web-based system to manage fisheries feed inventory and monitor low-stock items.
- Developed the interface using HTML, CSS, and JavaScript, with Python and Flask for backend functionality and REST APIs.
- Used MySQL for data management and deployed the application using Vercel and Render.

Maddy Cricket Cafe Platform | *HTML • CSS • JavaScript • Supabase • Vercel • Render*

- Built a cricket-themed food ordering website using HTML, CSS, and JavaScript.
- Used Supabase to store and manage application data and support user-related features.
- Deployed the application using Vercel and Render.

Education

Government College of Engineering, Erode — Erode, Tamil Nadu
B.E. Electronics and Communication Engineering (CGPA: 7.5) — *2023 – 2027*

Achievements

- **Winner** – Presidency University Hackathon, Bengaluru; secured INR 15,000 cash prize for project presentation.
- **Winner for Innovation** – HackTronix, Sairam Engineering College, Chennai.
- **Top 6 Teams** – Smart India Hackathon (SIH) 2025 National Finalist Shortlist.
- **Second Prize** – GALAXY'24 Technical Research Paper Presentation, GCE Erode.
- **Client Project Recognition** – Received INR 2,000 from a client for successfully developing and delivering the Fisheries Feed Management System.

Certifications

- **Introduction to Front-End Development** – Meta, Coursera.
- **Career Edge: Young Professional** – TCS iON.
- **HTML5 Development** – Infosys Springboard.
- **Prompt Engineering for Generative AI** – LinkedIn Learning.
- **Build & Deploy Apps with Google AI Studio** – HCL GUVI.
