Projects

Apex Seekers-Pvt.Ltd

I completed a AI&ML project where I implemented supervised and unsupervised learning models Additionally, I developed a Data Privacy Compliance Chatbot using Streamlit. The chatbot was designed with an interactive interface to address compliancerelated queries, embed privacy policy guidelines, and provide realtime query handling to enhance user experience.

Imagecon India-Pvt.Ltd

During my internship, I developed a machine learning model to predict employee salaries based on experience, education, and job-related features. I performed data preprocessing and exploratory data analysis to prepare the dataset, and implemented regression algorithms for prediction. This project gave me handson experience in applying ML techniques to solve real-world business problems.
