CAREER OBJECTIVE

Final-year B.Tech Agriculture Engineering student with a CGPA of 7.05, applying for the Management Trainee (HR) role at TasteofMOM. I have done four internships in food processing, quality control and retail, where I worked with production staff, lab teams and customers every day. I want to start my career in HR and campus hiring at a food brand that works with rural people

EDUCATION

Bachelor of Technology in Agriculture Engineering *2023 – 2027*
Dhanalakshmi Srinivasan University, Trichy | CGPA: 7.05

KEY SKILLS

People & Communication: Communication, Teamwork, Dealing with Customers and Staff, Coordination and Follow-up
Work Habits: Record-Keeping, Documentation, Time Management, Handling Multiple Tasks, Adaptability
Domain Knowledge: Food Processing, Food Safety, Quality Control, Post-Harvest Operations
Tools: Python, AutoCAD, CAD/3D Modelling

INTERNSHIPS

Retail Department Intern *June – July 2026*
MSCT Agro Production, Dharmapuri

- Spoke with customers daily to understand what they needed and suggested suitable products and fertilizer usage.
- Answered customer questions and helped with daily shop work such as inventory and product display.

Quality Control Intern *April 2026*
Ruby Food Products Private Limited, Madurai

- Checked 15–20 raw material and finished product samples every day and kept quality records as per food safety standards.
- Found and removed defective products during production so they did not move to the next stage.

PROJECTS

Fully Edible Chewing Gum Concept (Team of 4)

- Led the research and documentation for a team of 4 on a fully edible chewing gum, aimed at reducing the non-biodegradable waste from regular gum.
- Collected research on food safety and formulation options to help the team make product design decisions.

Carbonated Ready-to-Serve Beverage from Star Fruit (Final-Year Project, Ongoing)

- Working on a carbonated ready-to-serve drink made from star fruit; planning to publish the results as a research paper.

CERTIFICATIONS

- NPTEL: Food Microbiology for Safe and Sustainable Food Systems;
- Drone Building Workshop (Air Vulture Aerospace)
