PROFILE

Motivated and self-driven Information Technology graduate with a strong foundation in software programming, data systems, and cross-functional coordination. Adept at leveraging technical skill sets—including Python, data analytics, and web automation—to streamline virtual platforms and optimize operational workflows. Eager to contribute analytical problem-solving and cross-cultural communication capabilities to the Catalyst Now International Internship team.

EDUCATION

B.Tech - Information Technology **2022 – 2026**
Dhirajlal Gandhi College of Technology, Salem CGPA: 9.01

12th Grade – Mathematics, Computer Science **2020 – 2022**
Dawn Matriculation Higher Secondary School 91.5%

10th Grade **2019 – 2020**
Auvaiyar Government Girls Higher Secondary School 94.8%

TECHNICAL & CORE SKILLS

Programming & Tools:	Python (NumPy, Pandas, Matplotlib, Scikit-learn), Java, JavaScript, C, HTML, CSS
Data & Automation:	Web Scraping (BeautifulSoup), Data Analysis, Data Visualization
Web Development:	MERN Stack (Learning), React.js (Learning)
Core Capabilities:	Global Virtual Teamwork, Digital Operations, Project Systems Tracking, Documentation
Languages spoken:	English (Fluent), Tamil, Kannada, Spanish (Basic)

PROJECTS

AI-Powered News Sentiment Analyzer & Web Scraper | *Python, BeautifulSoup*

- Built an automated web scraper extracting daily localized news streams and weather information data layouts.
- Configured backend data evaluation scripts using Python to parse, format, and generate sentiment analysis metrics.
- Refined accuracy of information flows, gaining deep practical experience in pipeline data handling and clean documentation.

Personal Digital Portfolio Website | *HTML, CSS, JavaScript*

- Engineered an end-to-end responsive web application featuring custom toggle navigation grids and functional contact messaging logic.
- Optimized front-end UI structures to ensure high accessibility across multi-device user layouts.

CERTIFICATIONS

- **Oracle:** Data Analytics Certification
- **NPTEL:** The Joy of Computing (Python, 73% Elite)
- **Pantech eLearning:** Web Development (React.js)
- **IIT Madras:** ReverseCodingX Winner/Participant
- **GeeksforGeeks:** Python Certification
- **Pantech:** Master Python Programming Language
