www.linkedin.com/in/jayavarman-s-997b672a2

Enthusiastic Electronics and Communication Engineering student with a strong passion for Embedded Systems, IoT, PCB Design, and Drone Technology. Skilled in Arduino, ESP32, Java, Embedded C, and tools such as Wokwi. Hands-on experience in developing innovative projects including WiFi-Based Attendance System and Hairpin Bend Alerter. Completed internships in drone technology and nuclear power automation, gaining practical industrial exposure. Passionate about problem-solving and creating technology-driven solutions for real-world challenges.

Educational Qualification

B.E. Electronics and communication Engineering: 2023 - 2027
Nandha Engineering College(Autonomous), Erode
CGPA: 7.78

HSC: 2022 - 2023
Kongu Vellalar Matric Higher Secondary School, Tirupur.
Percentage: **81.83%**

SSLC: 2019 - 2020
Kongu Vellalar Matric Higher Secondary School, Tirupur.
Percentage: **80%**

Soft Skills

- Problem-Solving Mindset
- Technical Curiosity
- Leadership

Technical Skills

- Embedded Systems
- IoT
- Design Thinking
- PCB design
- Drone Design & Building

Microcontrollers & Microprocessors

- Arduino
- ESP32
- Raspberry Pi

Programming Languages

- Java
- Embedded C
- C

Tools & Software

- Arduino IDE
- Wokwi
- Ki Cad

Courses / Certifications

- **Internet of Things** - NPTEL (Apr 2025)
- **PCB Designing –** Credit Course (May 2025)
- **Raspberry Pi for Industrial Applications –** Credit Course (Oct 2025)
- **Embedded Computer Vision Using TensorFlow Lite - Credit Course (April 2026)**

Internships

Drone Technology Intern
Sri Eshwar Drone Tech Pvt. Ltd., Coimbatore | Dec 2025 – Jan 2026

- Completed a 14-day internship in Drone Technology.
- Gained hands-on experience in UAV systems, aerodynamics, drone design, flight training, mission planning, simulation, and real-time drone applications.

In-Plant Trainee – Nuclear Power Plant Automation
Nuclear Power Corporation of India Ltd. (NPCIL), Kudankulam | Jan 2026

- Completed in-plant training on "Where Atoms Meet Automation" at Kudankulam Nuclear Power Project Units 1 & 2.
- Learned nuclear power generation, reactor automation systems, safety instrumentation, and plant control operations.

Advanced Electronics Manufacturing Trainee
IIT Madras | Jun 2026

- Completed an 11-day (99-hour) certification course on Advanced Electronics Manufacturing with Power Electronics Fundamentals.
- Acquired hands-on experience in power electronics, PCB assembly, soldering, quality assurance, and industrial electronics manufacturing.

Projects

Onion Preservation System

- Developed a system to extend onion shelf life by monitoring temperature and humidity conditions.
- Designed to reduce post-harvest losses in agricultural storage.

WiFi-Based Attendance System

- Built an automated attendance system using WiFi network connectivity.
- Students mark attendance by connecting their devices to the system.

Hairpin Bend Alerter

- Designed a road safety system to detect vehicles at blind hairpin bends using ultrasonic sensors.
- Sends warning signals to the opposite side using RF transmission to prevent collisions.
