SUMMARY

Entry-level data analyst with an M.A. in Economics (CGPA 8.2) and hands-on skills in SQL, Power BI, Python (Pandas) and Excel. Built a Power BI fraud analysis dashboard on 20,000 transactions and an econometric study of RBI expenditure data from 1991 to 2024. Looking for a Data Analyst role where I can turn data into clear, actionable insights.

SKILLS

Databases and Querying: Oracle SQL, SQL*Plus, PL/SQL (stored procedures, functions, packages, triggers), MongoDB, SQL*Loader (data loading)

Analysis and Visualization: Power BI, Python (Pandas), Excel (pivot tables, VLOOKUP/XLOOKUP), EViews

Concepts: Exploratory data analysis, data cleaning and validation, dashboard design, causality and growth-rate analysis

Other: Jira, SDLC/STLC

PROJECTS

Credit Card Fraud Detection Analysis | *Power BI*

- Analyzed 20,000 transactions (Kaggle dataset) and built an interactive Power BI dashboard covering transaction patterns across spending categories.
- Identified an overall fraud rate of 1.70% and found Electronics to be the highest-risk category.
- Performed exploratory data analysis to isolate high-risk merchant segments and transaction trends for risk monitoring.

Public Expenditure Patterns and Economic Growth in India | *Excel, EViews*

- Analyzed RBI data from 1991 to 2024 to study how government spending relates to GDP growth.
- Calculated a CAGR of 11.06% in capital expenditure and 11.84% in revenue expenditure.
- Ran causality tests and found no causal link from capital expenditure to GDP, and bi-directional causality between revenue expenditure and GDP.

EXPERIENCE

Intern, Sales Department | Velson Drilling Dynamics **May 2025 – June 2025**

- Entered and maintained about 25 purchase order records per day in Excel with attention to accuracy.
- Supported the sales team by keeping order data organized and up to date.
