Professional Summary

Final-year Electrical and Electronics Engineering student with Basic knowledge in Electrical Machines,Circuit Theory, Power Electronics, Electrical Measurements, and Power Systems. Hands-on experience with ESP32, Arduino, sensors, and basic hardware design through academic projects and technical workshop. Familiar with responsible and confident individual with a positive approach, problem-solving ability and an interest in applying engineering concepts to practical industrial applications.Seeking a entry level Electrical Engineerring role

Technical Skills

Core	Circuit Theory, Electrical Machines, Power Electronics, Power Systems, Measurements & Instrumentation
Hardware	Circuit Design, Arduino Uno, ESP32
Programming	Python (Basics)
Software	MATLAB, Microsoft Excel, Microsoft Word, Microsoft PowerPoint
Tools	Fusion 360, Wokwi,Autocad(Basic)

Projects

Aqua Save – IoT-Based Smart Water Management System

- Developed an IoT-based smart water management system using ESP8266 NodeMCU, Ultrasonic Sensor, Relay Module, and Blynk for real-time water level monitoring and automatic pump control.

Alcohol Sensing Engine Ignition Lock

- Designed a vehicle safety system using Arduino Uno, MQ-3 Alcohol Sensor, and Relay Module to detect alcohol levels and prevent engine ignition.

Flood Detection and Alert System

- Built an ESP32-based flood monitoring system using Ultrasonic Sensor, LCD, Buzzer, Relay Module, and Blynk for real-time water level monitoring and instant alerts.

Hackathon

Smart India Hackathon (SIH25077)

- PPT: A Hardware to Detect and Prevent Unauthorised Use of Electric Fences.

Internship

Salem Steel Plant (SAIL) Electrical Intern

- Gained practical exposure to transformers, motors, switchgear, industrial electrical systems, and maintenance practices.

Acadamics

B.E. Electrical and Electronics Engineering (Final Year)
Government College of Engineering, Erode
CGPA: 8/10

Higher Secondary Certificate (HSC) 2022–2023
Government Higher Secondary School, Ayothiyapattinam
81.66%

Secondary School Leaving Certificate (SSLC) 2020–2021
Government High School, Ramalingapuram

Certifications

- PCB Design Using Fusion 360 – Naan Mudhalvan
- Workshop on Recent Advancements in Microgrid Using Optimization Techniques

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
